Mr. Robert Gunderson
Phillips Roxane, Inc.
2621 North Belt Highway
St. Joseph, MO 64502

Dear Mr. Gunderson:

Subject: Update Label & Formula Statement
Anchor Lindane Mange & Louse Spray
EPA Registration No. 4691-98
Your Application Dated June 27, 1984

The submitted confidential statement of formula does not support this product's label claim of 12.5% lindane, since the technical you are presumably using (EPA Registration No. was not indicated) is the 99.5% Lindane technical from Inquinoso which is distributed by Steuber Company Inc. The weight of lindane used will have to be slightly higher than 12.5 kg to allow for the technical not being 100%. I have enclosed a new form for your convenience. Please be sure to indicate the EPA Registration No. of your lindane source.

The labeling submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA) is acceptable. A stamped copy is enclosed for your records. For the next label printing please relocate the general protective clothing statement:

Applicators must wear the following protective clothing during the application process: A lightweight protective suit or coveralls; water-resistant hat; unlined, waterproof gloves; and unlined lightweight boots.. Mixers and loaders must also wear goggles or a face shield, waterproof gloves and a water proof apron.

to appear directly under

IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT IN A MANNER INCONSISTENT WITH ITS LABELING.

The above statement applies to both the animal treatment and residual spray uses. The respirator advice applies only to the residual spray use, and thus should appear in that text section after "Remove animals from barn while spraying."

Sincerely yours,

George T. LaRocca
Product Manager (15)
Insecticide-Rodenticide Branch
Registration Division (TS-767)
