PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
CAUTION
Harmful if swallowed. Keep out of reach of children. Do not contaminate feed or feeding utensils. Cover or remove food before spraying. Do not use on meat or dairy animals.

ENVIRONMENTAL HAZARDS
This pesticide is toxic to fish and aquatic invertebrates. Drift and runoff may be hazardous to aquatic organisms in neighboring areas. Do not apply directly to water or wetlands (swamps, bogs, marshes, and potholes). Do not contaminate water when disposing of equipment washwaters. Apply this product only as specified on this label.

PHYSICAL OR CHEMICAL HAZARDS
Do not use or store near heat or open flame.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

CONTAINER DISPOSAL: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incineration, or if allowed by state and local authorities, by burning. If burned, stay out of smoke.

PESTICIDE DISPOSAL: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

NOTICE: Seller warrants that this product conforms to the ingredient statement on the label. Since conditions of use such as weather, compatibility with other chemicals, and condition of application equipment will vary, Seller makes no claims other than those stated on this label.

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

Horse Spray & Rub-On has been specifically formulated for use on your horse and pony show stock. Do not use on meat animals. The product may be sprayed or wiped onto the animal's coat and will protect your animal from biting flies. The product will also impart a bright sheen to the animal's coat. Apply regularly during fly season.

AS A SPRAY
Select a hand sprayer which will apply the product in a fine mist or fog. Use one to two ounces (.15 gram to .3 gram methoxychlor) per animal per day. Also treat adjacent stable areas for more effective fly control. Do not wet the animal's skin. After application, brush the coat to give overall coverage. Make sure that legs and ankles are treated. For face area, treat as a wipe-on application.

TO WIPE ON
Rub the animal down and remove dirt. Pour a small amount (1 ounce) (.15 gram methoxychlor) into a soft cloth and wipe on against the hair grain. Make sure to treat legs, belly, the neck and the facial areas as well as the back line. Do not wet skin. After this application, brush the coat to bring out a bright sheen. Repeat this as needed to kill and repel biting flies. During fly time, best protection will be given by treating animals 3 to 4 times each week.
