

**PRECAUTIONARY STATEMENTS  
HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**CAUTION:** Wash thoroughly with soap and water after handling and before eating or smoking.

**STATEMENT OF PRACTICAL TREATMENT:** In case of eye contact, immediately flush eyes with plenty of water. Get medical attention if discomfort persists.

**ENVIRONMENTAL HAZARDS:** This pesticide is toxic to fish. Do not apply directly to water.

**PHYSICAL OR CHEMICAL HAZARDS:** Do not use or store near heat or open flame.

**STORAGE AND DISPOSAL:** Open as needed. Keep container sealed when not in use. Do not contaminate water, food or feed by storage or disposal. Remove tags before slaughter. Wrap used tags and dispose of in trash container. Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke. Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

PERMECTRIN<sup>™</sup>  
EAR TAGS  
"Ranch Pak"**

**FOR USE ON DRY OR LACTATING DAIRY AND BEEF CATTLE AND CALVES TO CONTROL HORN FLIES, FACE FLIES, GULF COAST TICKS, SPINOSE EAR TICKS; AND AS AN AID TO CONTROL LICE, STABLE FLIES AND HOUSEFLIES.**

**ACTIVE INGREDIENTS:**

Permethrin (3-phenoxyphenyl) methyl (±)-  
cis, trans-3-(2,2-dichloroethyl)-2-  
2-dimethylcyclopropanecarboxylate\* ..... 10.00%  
INERT INGREDIENTS ..... 90.00%  
TOTAL 100.00%

\*Cis/trans ratio: Min. 35% (±) cis, and max. 65% (±) trans isomers

**DIRECTIONS FOR USE  
GENERAL USE CLASSIFICATION**

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

**CAUTION KEEP OUT OF REACH OF CHILDREN**  
See side and end panels for additional directions for use

**NET CONTENTS PER PACKAGE: 50 tags, 50 studs  
NET WEIGHT PER TAG: 11.5 grams**

Code 401-921

**Directions for Use cont'd**

Attach one tag per animal in the spring to control horn flies for a full summer season. Tags are easy to apply or replace, if necessary. Attach two tags per animal to control face flies, gulf coast ticks, spinose ear ticks and as an aid in the control of lice, stable flies, and houseflies.

PERMECTRIN EAR TAGS are easy to attach using a variety of methods. They may be punched through an existing ear tag using the Fearing tagging system. See diagram on other side. However, tags punched through adult sized identification tags on young calves may result in tearing the ear and loss of the tags. Tags may also be positioned across entryways where animals are forced to use them as they gain access to barns, feeders, waterers or milking areas. Calves and cows may mutilate tags by sucking and chewing. While the active ingredient in PERMECTRIN EAR TAGS is relatively non-toxic when ingested, severe mutilation may result in reduced effectiveness or tag loss. The effect of PERMECTRIN EAR TAGS in controlling hornflies may be reduced in those areas where resistance to synthetic pyrethroids has developed.

**METHOD OF APPLICATION**

**STEP 1**  
Place ear tag under clip by compressing lower ear. Collar on tag must be pointing up. Slide male button on pin. Align stud with hole of tag. Tag and buttons are now ready for application.

**STEP 2**  
Push ear tag on the flat surface of center of ear. Do not allow shaft of the male button to penetrate any cartilage or blood vessel.

When properly positioned the tag should hang as shown.  
Recommended applicator: Fearing
