**SHAKE WELL BEFORE USING**

**For Dogs, Cats, Puppies and Kittens:** Do not use on puppies or kittens under 12 weeks old. Cover animal's eyes with hand and with a firm, fast stroke, to get proper spray mist, spray head, ears and chest. With fingertips, rub into face around mouth, nose and eyes. Then spray the neck, middle and hind quarters, finishing with legs last. Apply spray until animal is uniformly damp. Animal should not be soaked or sprayed to the point of run-off. For best penetration, spray against natural lay of the hair. On a heavily coated animal, rub your hand against the lay of the hair, spraying the ruffled hair directly behind your hand. Make sure spray thoroughly wets attached ticks. Repeat every 7 days if necessary for control of adult fleas. Allow spray to dry before allowing cats to groom themselves. Wash hands thoroughly with soap and water after treating pet.

**Use this product in a well ventilated area.** Consult your veterinarian before using this product on pregnant or lactating females, old, sick, or debilitated animals, or on animals undergoing drug or other pesticide treatment.

**For Resting Quarters & Kennels:** Apply evenly as a spray for spot treatment to infested areas such as dog houses, pet beds, resting quarters, kennels & outdoor areas around the house where the pet lays or sleeps. Old bedding should be sprayed thoroughly or replaced for best results. If mosquitoes, gnats or flies are present, spray lightly into the air. Remove birds & cover aquariums/fish bowls. Repeat as necessary.

**For Pet's Environment:** For maximum flea control, the infested areas should be treated according to label use directions with Ptenocide™ Aerosol House & Carpet Spray, available from your veterinarian.
