DIRECTIONS

READY TO USE!

OUTDOOR — For the control of flies, mosquitoes, gnats and small flying insects. For hand equipment such as the Swingfog SN-8, use rate of 1 to 2 gallons per acre walking at a moderate rate (5 miles per hour). Direct fog down wind. Wind should not be greater than 5 M.P.H. for optimum results. Fog will penetrate foliage and area for approx. 50-70 ft. Apply early in the morning when conditions are favorable or in the evening. Repeat treatment as required.

WHERE TO FOG — Fog wooded and shaded areas.

ACCEPTED
