DIRECTIONS FOR USE

Magic Circle Household Insect Spray is a highly effective new formulation which provides rapid kill of such crawling insects as listed below, including those resistant to certain chlorinated hydrocarbon and phosphate insecticides.

- | | |
|-----------------|---------------------------|
| Ants | Roaches |
| Brown Dog Ticks | Scorpions |
| Clover Mites | Saw-toothed Grain Beetles |
| Crickets | (exposed stage) |
| Earwigs | Silverfish |
| Fleas | Sowbugs |
| Millipedes | Spiders |

and the following flying insects: flies, hornets, mosquitoes and wasps.

In addition to rapid kill, Magic Circle Household Insect Spray stays on treated surfaces and kills insects many weeks after the spray deposit has dried.

HOW TO USE: Magic Circle Household Insect Spray is ready to use undiluted as it comes from the can, and may be applied with either power-operated or hand sprayers. Apply as a coarse spray to infested surfaces until wet, moving the spray stream rapidly enough to prevent excessive wetting of surfaces and waste of material. Direct spray away from people, plants, and pets.

RESTRICTIONS: Do not apply to rugs, carpets, draperies, wallpaper, or similar materials that may be stained. Avoid excessive wetting of plastic, rubber and asphalt surfaces such as tiles, and floor coverings. Do not allow the small, finger-operated, plastic attachment type sprayer to remain in Magic Circle Household Insect Spray solution for extended periods as the plastic sprayer may be damaged.

FLAMMABLE Do not spray into or near open flame. Do not smoke while using. Keep container away from stoves, radiators, or other hot surfaces.

CONTAINER DISPOSAL: Do not reuse container. Destroy it by perforating or crushing. Bury or discard in a safe place.
