DIRECTIONS FOR USE

SEED TREATMENT: A special powder formulation for treatment of corn and soybean seed, prior to planting, for the temporary protection of germinating seeds and seedlings against seed and soil-borne diseases, including damping-off, seed decay organisms, and seedling blights.

PLANTER BOX APPLICATION: Prepared for use directly in the planter box, or may be mixed in any commercial seed treater, barrel treater, or rotating container, such as a cement mixer. Best protection will be obtained where every seed is coated with the chemical. DO NOT USE TREATED SEED FOR FOOD, FEED OR OIL PURPOSE.

KEEP PLANTER PLATES CLEAN: Grease or oil on plates can cause clogging.

*NOTE: Captan 75 Seed Protectant has been mixed with graphite as an aid in safe handling and lubrication of equipment.

NOTICE: Seller's guarantee shall be limited to the terms of the label, and subject thereto the buyer assumes all risk to persons or property arising out of use or handling and accepts the product on these conditions.
