

WARNING: May be fatal or harmful if swallowed or absorbed through the skin. Do not get in eyes or on skin. Do not breathe spray mist. Always wash thoroughly with soap and warm water after handling. Wash contaminated clothing with soap and hot water before reuse. Do not contaminate feed or food. If poisoning occurs get medical attention immediately. Prolonged exposure will result in cholinesterase depression. **NOTE TO PHYSICIAN:** Atropine Sulfate is antidote. 2-PAM is also antidote and may be used in conjunction with Atropine.

ENVIRONMENTAL CAUTION

This product is toxic to fish, wildlife and birds. Do not contaminate water by cleaning of equipment or disposal of wastes. Keep out of lakes, streams and ponds. Do not apply where runoff is likely to occur. Do not apply when weather conditions favor drift from areas treated. Apply this product only as specified on the label.

This product is toxic to bees and should not be applied when bees are actively visiting the area.

Do not use on plants containing essential oils, such as citrus, by perforation, crushing and sucking of life parts.

DIRECTIONS

Do not use NAVUNEX-8 Dust in combination with alkaline materials such as lime and potassium sulfate. Do not use on plants containing essential oils, such as citrus, which are highly susceptible to beehive pathogen with chlorinated hydrocarbons. However, the selective advantage of NAVUNEX-8 Dust is lost when it is used in combination with chlorinated hydrocarbons to pesticides which are not selective.

Begin applications immediately after planting and require 14 Day plants thoroughly irrigated 10 days between last application and harvest. Rotate to following crop:

ARTICHOKES (14) Artichoke, Globe, Mottled. Apply

NAVUNEX-8 DUST

Contains 3% triphenylborfon

A Selective Insecticide for Use on Certain Vegetable Crops

ACTIVE INGREDIENT

NAVUNEX-8 DUST

Contains 3% Tribolene

A Selective Insecticide for Use on Certain Vegetable Crops

LIMA BEANS: (30) Dosage as shown above, but do not apply more than 1 lb. per season.

BEETS (28): Beet Armyworm, Beet Webworm, Dipsos Leaf Miners, Lygus Bugs, Variegated Cutworm, 12 lbs. per acre. Alfalfa Webworm, Salt Marsh Caterpillar, 12 1/2 to 15 lbs. per acre. Do not eat tops.

BRUSSELS SPROUTS, CABBAGE, CAULIFLOWER (21): Diamond Back Moth, Imported Light Brown Variegated Cutworm, Western Green Striped Armyworm, 10 lbs. per acre.

COTTON (7): Beet Armyworm, Cotton Flea, Western Yellow-Striped Armyworm, Cotton Flea, Black Fleahopper, Complex Cotton Fleahopper, Cotton Leaf Perforator, Darkling Ground Beetle, Leaf Miner, Lygus Bug, Salt Marsh Caterpillar, Southern Green Leafhopper, Striped Bug, 12 to 15 lbs. per acre. Do not apply within 3 days of harvest. Do not use in treated field for 30 days after application.

LETTUCE (28): Armyworms, Imported Light Brown Diamond Back Moth, Dipsos Leaf Miner, Salt Marsh Caterpillar, Variegated Cutworm, 12 to 15 lbs. per acre. If necessary, use additional Tribolene.

PEPPERS (21): Imported Light Brown Diamond Back Moth, Serpentine Leaf Miner, 12 to 15 lbs. per acre.

PUMPKINS (14): Squash Bug, Vine Borer, 15 to 18 lbs. per acre. Do not apply more than 1 lb. per season.

SAFFLOWER: Armyworms, Diamond Back Moth, Imported Cutworms, Imported Light Brown Variegated Cutworm, 12 to 15 lbs. per acre. Do not apply if plants are in flower. Do not use in treated field for 30 days after application.

SUGAR BEETS (14) or (28): Beet Armyworm, Beet Webworm, Dipsos Leaf Miner, Imported Light Brown Variegated Cutworm, 12 to 15 lbs. per acre. Alfalfa Webworm, Salt Marsh Caterpillar, 12 to 15 lbs. per acre. Do not apply within 20 days of harvest. Do not be fed to livestock within 30 days of harvest.

ACTIVE INGREDIENT
 Tribolene (Dimethyl 12,12-dichloro-2,2-dicyanoethyl)
