**STATEMENTS OF PRACTICAL
TREATMENT**

IF SWALLOWED--Call a physician or Poison Control Center immediately. Note to physician: Product contains cholinesterase inhibitor. Atropine should be administered only if symptoms of cholinesterase inhibition appear.

IF INHALED--Remove victim to fresh air. Apply artificial respiration if indicated.

IF ON SKIN--Remove contaminated clothing and wash affected areas with soap and water.

IF IN EYES--Flush eyes for at least 15 minutes with water. Call a physician immediately.

ENVIRONMENTAL HAZARDS

This product is extremely toxic to aquatic invertebrates. Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water by cleaning of equipment or disposal of wastes.

This product is highly toxic to bees exposed to direct treatment or residues on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds if bees are visiting the treatment area.

ZONE CONTROL

To prevent reoccurrence of fleas, a total management program is recommended. You should treat the areas where fleas live with the Holiday 4-Step Program which consists of: Step 1- Shampoo/Dip the pet; Step 2- Treat the home and yard; Step 3- Flea and Tick Collars on the pet; Step 4- Maintenance Sprays and Powders. Ask your pet care professional for specific recommendations on how to best control fleas for the comfort and well being of your pet and family.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. For use on lawns, sprinkle at rate of 4 oz. for each 100 square feet. Remove dog before treating kennels or runs. Dust liberally in and around kennels and on dog's bedding to control infestation of fleas and ticks. **Do not use inside home.** Repeat as necessary.

STORAGE AND DISPOSAL

STORAGE: Store in a cool dry area out of reach of children.

DISPOSAL: Do not reuse container. Wrap in paper and dispose with trash.
