

DIRECTIONS FOR USE

In the United States of America, how to use this product in a humane manner starts with the following:

Apply ointment to the ears and between toes. Make sure you get the ointment on the ticks, the before dogs enter tick-infested areas. Spread ointment on the edges of ears to aid in repelling biting flies, mosquitoes and other parasites from these areas of the animal's body.

DISPOSAL

Do not use empty container. Wrap container and place in trash as with other household waste.
