Floor Copy

**FOR USE ONLY  
WHEN THE HOME IS VACATED  
BY HUMANS AND PETS**

**DIRECTIONS:** Use at least one canister for each 12,000 cubic feet of unobstructed area. Use additional units for remote rooms or where free flow of mist is not assured.

**IMPORTANT:** Fogger must be placed on table, chair or stand when releasing. Place newspapers under canister to prevent marring surface. Close doors and windows. Remove fish tanks and aquariums with paper or remove. Fish should be removed or covered during treatment. All processing surfaces must be covered during or thoroughly cleaned before using. When using the product in these areas, apply only when the facility is not in operation. Open cabinets and doors to areas to be treated. Shut off fans and air conditioners. Put out all open flames except pilot light. Place at least 6 feet away from gas light. Keep 20 feet's length when releasing. Point top of can away from face and eyes.

To start fogging position clip as shown on the diagram of box and press. Set in upright position and leave the building at once. Leave undisturbed for 2 hours. Close doors and windows and allow to air for 30 minutes. Fogger alone uses a special patented positive release clip.

**WARNING:** Contents under pressure DO NOT PUNCTURE OR INCINERATE. DO NOT STORE IN TEMPERATURES IN EXCESS OF 128° F.

Avoid breathing of mist. Avoid contact with eyes. Harmful if swallowed. Avoid contact with skin. Wash hands after handling. Keep out of reach of children.

Avoid contamination of food and food stuffs. Insecticides may soften some asphalt tile floors. If used directly over asphalt tile, newspapers should be spread on the floor for several feet around the area of release. Do not use with freshly waxed floors. Allow 3 weeks for wax to harden as this product may cause fresh wax to become softened.
