DIRECTIONS: HOLIDAY Repellent Dust contains combinations of essential oils impregnated into tobacco dusts and absorbent powders. The aroma is pleasant to most people but apparently disliked by pets.

Dust around any area where appearance of dust is not objectionable. Use sparingly. Tiny amounts are effective. Repeat daily until pets are conditioned, then as needed. Repeat after heavy rains. Some animals are persistent but usually can be conditioned to avoid treated areas after two or three experiences with the repellent.

CAUTION: Avoid getting dust into eyes or mouth to prevent temporary irritation.
