 UNDER THE FEDERAL INSPECTOR'S
 SUPERVISION

BITTER spray is stainless and harmless ~~to~~ any surface not affected by alcohol. **BITTER** does not repel animals and has a pleasant odor. Most pets are conditioned against chewing or licking medication, sore spots, bandages, furniture, clothing, shoes or other objects after one or two applications.

DIRECTIONS

Hold about 8 inches from animal or object and spray lightly. One spraying works on most pets; two or three sprayings usually condition the most stubborn pet. Repeat daily or as needed.

NOTE: The alcohol in **BITTER** may cause softening and loosening of tape if thoroughly wet. Spray the adhesive very lightly.

CAUTION: FLAMMABLE. Contents under pressure. Do not puncture. Do not use or store near heat or open flame. Exposure to temperatures above 130°F. may cause bursting of container. Never throw into fire or incinerator. Do not spray directly into eyes. Avoid wetting animal's testicles to prevent irritation.

SOLD TO VETERINARIANS ONLY *Efluyt*

SDA Fla. 273
