

GUARANTEE
 If this product fails to perform as claimed, mail this Container to Pet Chemicals, Inc. FULL PURCHASE PRICE plus your return postage will be refunded by return mail.

DIRECTIONS

Use one level cupful of spray powder to each 15 to 20 gallons of water for each 500 square feet of lawn or kennel. Apply with pressure sprayer, sprinkling can, or a hose type sprayer.

A hose applicator is an ideal method of application. Pour one cup of spray powder into jar. Fill with water to a level where at least 15 gallons of water will be delivered. Shake or stir until milky. An occasional shaking while spraying is desirable to give a homogenous mixture. Apply total to 500 square feet and repeat mixing and spraying for larger areas.

Animals should be removed while spraying. Mature animals can be returned to these areas 30 minutes after spraying. It is advisable to keep kittens and young puppies out of spraying area until area is dry.

A coarse spray is desirable. Do not use as a space spray. Do not use where some white residue is objectionable.

SEVIN is the registered trade mark for Carbaryl insecticide.
CAUTION: Harmful if inhaled or swallowed. Avoid breathing of dust or spray. Do not take internally. Skin contact with dust or spray may be harmful. Avoid unnecessary contact. Wash hands and face before eating.

AVOID CONTAMINATION OF FEED AND FOODSTUFFS.

NOTE TO PHYSICIAN: Carbaryl is a moderate, reversible cholinesterase inhibitor. Atropine is antidotal.

ACTIVE INGREDIENTS:
 Carbaryl (1-naphthyl N-methylcarbamate) 50.00%
INERT INGREDIENTS: 50.00%
 Contains SEVIN[®] Carbaryl Insecticide
