JET SPRAY**

4158-85

**KILLS HORNETS, WASPS,
BEES, ANTS, SPIDERS,
MOSQUITOES**

Manufactured for
SOUTHERN MILL CREEK PRODUCTS COMPANY, INC.
Tampa, Florida

CAUTION: Keep out of reach of children.
See back panel for additional cautions.

DIRECTIONS: To kill Wasps, Hornets, Bees, Ants and Spiders spray into nests or infested areas. Use in mornings or evenings for best results when nests are in or near nests or cracks or crevices. For long range spraying use a nozzle away from body and direct stream at target. Also direct spray at the nests or where nests may be hiding. Wet thoroughly. Residual action will usually kill insects soon after contacting treated surfaces. Insects wet with the spray will usually drop within a few seconds. Do not attempt to spray flying Hornets, Wasps or Bees within reach as they may attack if not hit with the spray. When spraying cracks or surfaces such as walls, window sills, doorways or other places insects may crawl or hide, hold nozzle about 10 to 12 inches from surface and wet thoroughly **avoiding excessive runoff.**

CAUTION: For outdoor use only. Do not use as a space spray. Harmful if swallowed or absorbed through the skin. Wash thoroughly after using and especially before smoking or eating. Do not contaminate feed, foodstuffs or water. Keep out of reach of children. If swallowed induce vomiting by giving a tablespoonful of salt in a glass of warm water. Repeat until vomit fluid is clear. Get medical attention. In case of contact with the skin wash with soap and water. Avoid breathing spray mist.

ACTIVE INGREDIENTS: Petroleum distillates, 72.40%; Technical Chlordane* (octachloro-4,7-methanotetrahydroindane), 2.00%; Technical Piperonyl Butoxide**, 0.50%; Pyrethrins, 0.10%.

INERT INGREDIENTS: 25.00%.

*Equivalent to 1.20% octachloro-4,7-methanotetrahydroindane and .80% related compounds.

**Equivalent to 0.40% of (butylcarbityl)(6-propylpiperonyl) ether and 0.10% related compounds.
