ZONE CONTROL

To effectively control fleas, you may be required to treat three insect zones where fleas can live. These zones are the pet, the home, and the yard. FLEA STOP SHAMPOO treats the pet insect zone. For treatment of the home and yard, you can buy other FLEA STOP zone control products. Ask your pet care professional for specific recommendations on how to best control fleas for the comfort and well being of your pet and family.

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS WARNING

Causes eye irritation. Do not get in eyes. Harmful if swallowed. While washing cats, kittens or puppies, avoid getting shampoo in animal's eyes. Do not use on kittens or puppies under 6 weeks of age. May be used in conjunction with organophosphates and carbamate based insecticides. Does not inhibit acetylcholinesterase activity.

STATEMENT OF PRACTICAL TREATMENT

If Swallowed: Call a physician or Poison Control Center. Give a glass or two of water and induce vomiting by touching the back of throat with finger, or, if available, by administration of syrup of ipecac. Never give anything by mouth or induce vomiting in an unconscious person.

If in eyes: Flush eyes with plenty of water. Get medical attention.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Wet dog or cat with warm water and apply small amount of shampoo along the back of the animal. Work well into coat, starting at head and working back. Include legs and feet. When lather is of desired consistency, continue to work into coat for 10 minutes to kill fleas. Rinse thoroughly with warm water and dry. When washing cats, kittens or puppies, dry with cloth immediately after rinsing to prevent chilling.

STORAGE AND DISPOSAL

Disposal: Do not reuse container. Wrap container and discard with trash.
