Pet Chemicals  
P.O. Box 18993  
Memphis, TN 38181

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

Based on your response to the Reregistration Eligibility Document(s), EPA has reregistered the product listed above. Enclosed is a copy of your label stamped "Accepted". This action is taken under the authority of section 4(g)(2)(c) of the Federal Insecticide, Fungicide, and Rodenticide Act, as amended. Reregistration under this section does not eliminate the need for continual reassessment of pesticides. EPA may require submission of data at any time to maintain the registration of your product.

A stamped copy of your label is enclosed for your records.

**ZONE CONTROL**

To prevent reoccurrence of fleas, a total management program is recommended. You should treat the areas where fleas live with the HOLIDAY® 4 -Step Program which consists of : Step 1 - Shampoo/Dip the Pet; Step 2 - Treat the Home and Yard; Step 3 - Flea and Tick Collars on the Pet; Step 4 - Maintenance Sprays and Powders. Ask your pet care professional for specific recommendations on how to best control fleas for the comfort and well being of your pet and family.

[Alternate to zone control language] added by notification on 5/2/96  
[Holiday Flea & Tick Shampoo is highly regarded not only as an effective flea & tick killer, but also as a superior grooming product. Its non-alkaline formula contains the key active ingredient, d-Limonene, a pleasant citrus-scented insecticide, plus cleansing agents, lanolin and special conditioners. As a result, tangles brush out easily, leaving the pet with a clean, soft, shiny, healthier-looking coat and a fresh, clean smell.  
For added protection against fleas and ticks, use [brand name] Flea & Tick Dip and Spray as part of pet grooming. As with any quality product, be sure to read all label instructions carefully.]

**PRECAUTIONARY STATEMENTS  
HAZARDS TO HUMANS AND DOMESTIC ANIMALS  
WARNING**

Causes eye irritation. Do not get in eyes. Harmful if swallowed. While washing dogs, cats, kittens or puppies, avoid getting shampoo in animal's eyes. Do not use on kittens or puppies under 12 weeks of age. Consult a veterinarian before using this product on debilitated, aged, pregnant or nursing animals, or animals on medication.

Applicators of flea shampoo products are to use protective gloves to reduce the risk of dermal irritation or dermal sensitization.

Sensitivities may occur after using ANY pesticide product for pets. If signs of sensitivity occur bathe your pet with mild soap and rinse with large amounts of water. If signs continue, consult a veterinarian immediately. Individual animals may exhibit one or more of the following symptoms: hypothermia, tremors, ataxia, excess salivation, agitation and vocalization followed by lethargic behavior, skin and eye irritation in varying degrees.

243

Discontinue use if one or more of the above symptoms develops.  
May be used in conjunction with organophosphates and carbamate based insecticides. Does not inhibit acetylcholinesterase activity.

### **FIRST AID**

**If Swallowed:** Call a physician or Poison Control Center. Give a glass or two of water and induce vomiting by touching the back of throat with finger, or, if available, by administration of syrup of ipecac. Never give anything by mouth or induce vomiting in an unconscious person.

**If in eyes:** Flush eyes with plenty of water. Get medical attention.

### **ENVIRONMENTAL HAZARDS**

Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment washwater or rinsate.

### **DIRECTIONS FOR USE**

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Wet dog or cat with warm water and apply small amount of shampoo along the back of the animal. Work well into coat, starting at head and working back. Include legs and feet. When lather is of desired consistency, continue to work into coat for 10 minutes to kill fleas. Rinse thoroughly with warm water and dry. When washing cats, kittens or puppies, dry with cloth immediately after rinsing to prevent chilling. Do not use on puppies or kittens under 12 weeks of age. Do not reapply product for one week.

### **STORAGE AND DISPOSAL**

**Disposal:** Do not reuse container. Wrap container and discard with trash.

In case of emergency or for product use information please call 901/362-1950 Monday thru Friday 7:30 am to 4:30 pm CST (Distributors may elect to use their own phone numbers and hours of operation.).
