KITTENS**

**ZONE CONTROL**

To prevent reoccurrence of fleas, a total management program is recommended. You should treat the areas where fleas live with the HOLIDAY® 4-Step Program which consists of: Step 1 - Shampoo/Dip the Pet; Step 2 - Treat the Home and Yard; Step 3 - Flea and Tick Collars on the Pet; Step 4 - Maintenance Sprays and Powders. Ask your pet care professional for specific recommendations on how to best control fleas for the comfort and well being of your pet and family.

[Alternate to zone control language]  
[Holiday Flea & Tick Shampoo is highly regarded not only as an effective flea & tick killer, but also as a superior grooming product. Its non-alkaline formula contains the key active ingredient, d-Limonene, a pleasant citrus-scented insecticide, plus cleansing agents, lanolin and special conditioners. As a result, tangles brush out easily, leaving the pet with a clean, soft, shiny, healthier-looking coat and a fresh, clean smell.

For added protection against fleas and ticks, use [brand name] Flea & Tick Dip and Spray as part of pet grooming. As with any quality product, be sure to read all label instructions carefully.]

**PRECAUTIONARY STATEMENTS  
HAZARDS TO HUMANS AND  
DOMESTIC ANIMALS  
WARNING**

Causes eye irritation. Do not get in eyes. Harmful if swallowed. While washing dogs, cats, kittens or puppies, avoid getting shampoo in animal's eyes. Do not use on kittens or puppies under 12 weeks of age. Consult a veterinarian before using this product on debilitated, aged, pregnant or nursing animals, or animals on medication.

Applicators of flea shampoo products are to use protective gloves to reduce the risk of dermal irritation or dermal sensitization.

Sensitivities may occur after using ANY pesticide product for pets. If signs of sensitivity occur bathe your pet with mild soap and rinse with large amounts of water. If signs continue, consult a veterinarian immediately. Individual animals may exhibit one or more of the following symptoms: hypothermia, tremors, ataxia, excess salivation, agitation and vocalization followed by lethargic behavior, skin and eye irritation in varying degrees. Discontinue use if one or more of the above symptoms develops. May be used in conjunction with organophosphates and carbamate based insecticides. Does not inhibit acetylcholinesterase activity.

### **ENVIRONMENTAL HAZARDS**

Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment washwater or rinsate.

### **DIRECTIONS FOR USE**

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Wet dog or cat with warm water and apply small amount of shampoo along the back of the animal. Work well into coat, starting at head and working back. Include legs and feet. When lather is of desired consistency, continue to work into coat for 10 minutes to kill fleas. Rinse thoroughly with warm water and dry. When washing cats, kittens or puppies, dry with cloth immediately after rinsing to prevent chilling. Do not use on puppies or kittens under 12 weeks of age. Do not reapply product for one week.

### **STORAGE AND DISPOSAL**

**STORAGE:** Do not contaminate water, food, or feed by storage and disposal.

**DISPOSAL:** If empty: Do not reuse this container. Place in trash or offer for recycling if available. If partly filled: Call your local solid waste agency or 1-800-CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain.

In case of emergency or for product use information please call 901/362-1950 Monday thru Friday 7:30 am to 4:30 pm CST (Distributors may elect to use their own phone numbers and hours of operation.).
