Dip for Dogs, Cats,
Puppies & Kittens

Name and Address of Registrant (include ZIP Code):

Pet Chemicals
P.O. Box 18993
Memphis, TN 38181

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

Based on your response to the Reregistration Eligibility Document(s), EPA has reregistered the product listed above. Enclosed is a copy of your label stamped "Accepted". This action is taken under the authority of section 4(g)(2)(c) of the Federal Insecticide, Fungicide, and Rodenticide Act, as amended. Reregistration under this section does not eliminate the need for continual reassessment of pesticides. EPA may require submission of data at any time to maintain the registration of your product.

A stamped copy of your label is enclosed for your records.

ZONE CONTROL

To prevent reoccurrence of fleas, a total management program is recommended. You should treat the areas where fleas live with the HOLIDAY® 4-Step Program which consists of: Step 1 - Shampoo/Dip the Pet; Step 2 - Treat the Home and Yard; Step 3 - Flea and Tick Collars on the Pet; Step 4 - Maintenance Sprays and Powders. Ask your pet care professional for specific recommendations on how to best control fleas for the comfort and well being of your pet and family.

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
WARNING**

**DO NOT USE FULL STRENGTH. MIX WITH WATER AS
DIRECTED.**

Flea dip concentrates may harm animals when used at greater strength than specified on the label.

May cause eye injury. Do not get in eyes, or on clothing. Wear eye protection when mixing concentrate with water. Applicators of flea and dip products are to use protective gloves to reduce the risk of dermal irritation or dermal sensitization. Harmful if swallowed. Wash thoroughly with soap and water after handling.

Consult a veterinarian before using this product on debilitated, aged, pregnant or nursing animals, or animals on medication.

Do not use on puppies or kittens under 12 weeks of age. Young animals should be towel dried immediately after treatment to prevent chilling. Do not repeat treatment for one week.

Sensitivities may occur after using ANY pesticide product for pets. Individual animals may exhibit one or more of the following symptoms: hypothermia, tremors, ataxia, excess salivation, agitation and vocalization followed by lethargic behavior, skin and eye irritation in varying degrees. If signs of

273

sensitivity occur bathe your pet with mild soap and rinse with large amounts of water. If signs continue, consult a veterinarian immediately.

PHYSICAL OR CHEMICAL HAZARDS

Do not use or store near heat or open flame.

ENVIRONMENTAL HAZARDS

Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high-water mark. Do not contaminate water when disposing of equipment washwater or rinsate.

FIRST AID

If Swallowed: Call a physician or Poison Control Center. Give milk or water, but do not induce vomiting except under medical supervision because of aspiration hazard. Do not give anything by mouth to an unconscious person.

If on skin: Wash off with soap and water. Get medical attention if irritation develops.

If in eyes: Flush with plenty of water. Get medical attention
May be used in conjunction with organophosphate and carbamate based insecticides. Does not inhibit acetylcholinesterase activity.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

TO KILL FLEAS AND TICKS ON dogs, cats, puppies, and kittens. Do not use on puppies or kittens under 12 weeks of age.

Mix 1 1/2 oz. (3 tablespoons) to 1 gallon of water or 2 teaspoons to 1 quart of water. **DO NOT USE FULL STRENGTH, DILUTE AS DIRECTED.**

Mix well. Wet animal with water first. Sponge or sprinkle on animal until coat is thoroughly wet. Rub well into fur, between toes and on ears. Avoid eye, scrotal, and anal areas. For best results do not rinse but allow to dry naturally. Citrus ingredient conditions the coat, leaving it shiny and soft, and

eliminates unpleasant pet odor, leaving in its place a pleasant citrus fragrance.

STORAGE AND DISPOSAL

Storage: Do not use or store near heat or open flame. Do not contaminate food or water by storage.

Disposal: Do not re-use empty container. Wrap empty container and discard with trash..

In case of emergency or for product use information, please call 901/362-1950 Monday thru Friday 7:30 to 4:30 CST. [For Distributor labels phone number and hours of operation will vary]
