Date of Issuance:
JAN 29 1997

NOTICE OF PESTICIDE:
 Registration
 Reregistration

Term of Issuance: Until
Reregistration

Name of Pesticide Product:
Holiday Fire Ant
Killer E.C.

(under FIFRA, as amended)

Name and Address of Registrant (include ZIP Code):

Pet Chemicals
P.O. Box 18993
Memphis, TN 38181-0993

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you:

1. Submit and/or cite all data required for registration/ reregistration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for reregistration of your product under FIFRA section 4.

2. Make the following label change before you release the product for shipment:

a) Revise the EPA Registration Number to read, "EPA Reg. No. 4758-172."

Signature of Approving Official:

William W. Jacobs
Acting Product Manager 14
Insecticide-Rodenticide Branch
Registration Division (7505C)

Date:

JAN 29 1997

b) Since it has been determined through the efficacy data that you submitted on 17 February 1996 that your product is only effective to control fire ants at 5%, you must change the dilution rates table to read as follows:

DILUTION RATES:

SPI Fire Ant Killer E.C.	Gallons of Water
4 fl.oz	0.5
8 fl.oz	1.0
12 fl.oz	1.5
16 fl.oz	2.0

Submit one (1) copy of the final printed labeling for the record before you release the product for shipment.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

Sincerely,

William W. Jacobs
Acting Product Manager (14)
Insecticide-Rodenticide Branch
Registration Division (7505C)

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS WARNING

May cause eye injury. Do not get in eyes, or on clothing. Wear eye protection when mixing concentrate with water. Harmful if swallowed. Wash thoroughly with soap and water after handling.

PHYSICAL OR CHEMICAL HAZARDS

Do not use or store near heat or open flame.

ENVIRONMENTAL HAZARDS

Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment washwater or rinsate.

STATEMENT OF PRACTICAL TREATMENT

If swallowed: Call a physician or Poison Control Center. Give milk or water, but do not induce vomiting except under medical supervision because of aspiration hazard. Do not give anything by mouth to an unconscious person.

If on skin: Wash off with plenty of soap and water. Get medical attention if irritation develops.

If in eyes: Flush with plenty of water. Get medical attention.

Does not inhibit acetylcholinesterase activity.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Holiday Fire Ant Killer E.C. is an emulsifiable concentrate and should be diluted with water as specified below. Never use Holiday Fire Ant Killer E.C. at full strength.

3/9

Soil Drench Method: Use the appropriate rate of SPI Fire Ant Killer with enough water to insure that the Fire Ant mound is completely saturated. Consult the dilution chart below for the appropriate dilution rate.

Apply the Soil Drench in the early morning hours before the fire ants become active. Apply the Soil Drench in a circular motion starting at the base of the mound and continuing to the top of the mound.

Mix only enough Soil Drench to be used at one time. Do not store Soil Drench solution overnight.

As a Spray: Apply Holiday Fire Ant Killer E.C. in a "pump-up" type sprayer to control fire ants not in the mound at time of treatment. Fill the sprayer with diluted product as specified below. Apply to fire ants roaming outside the Soil Drench area. Mix only enough Spray to be used at one time. Do not store Spray solution overnight

DILUTION RATES:

SPI Fire Ant Killer E.C.	Gallons of Water
2.5 fl.oz.	0.5
5.0 fl.oz.	1.0
7.5 fl.oz.	1.5
10.0 fl.oz.	2.0
