PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Causes moderate eye irritation.
Avoid contact with eyes or clothing. Wash
thoroughly with soap and water after handling and
before eating or smoking. Do not contaminate
feed, water or foodstuffs. Do not apply to food
processing surfaces or use in food processing areas
where food is exposed. Cover fish aquariums
before use. Keep children and pets off treated
carpet and upholstered furniture during treatment
and while powder is still visible on their surfaces.

STATEMENT OF PRACTICAL TREATMENT

If in Eyes: Flush eyes with plenty of water. Get
medical attention if irritation persists.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in
a manner inconsistent with its labeling.

Shake well before using. Apply to dry surfaces
only. Do not wet powder. Apply powder more
heavily to areas of flooring or furniture on which
pets spend most of their time.

Carpets: Shake powder evenly across surface.
Brush lightly with broom to force powder deep into
carpet where fleas and their larvae exist. Wait at
least 60 minutes before (lightly) vacuuming to
remove visible surface powder. For maximum
efficacy, delay vacuuming for up to 24 hours.

Upholstery: Remove loose cushions. Sprinkle
along creases and into corners. Brush lightly to
work powder into folds and creases. Vacuum to
remove visible powder on surfaces. Do not use on
exposed fabric without first testing on a hidden
surface for effects on color (staining) or texture. If
powder adheres to a spot, brush out and vacuum
that area immediately.

When emptying vacuum bag after use, wrap
contents or disposable bag in several layers of
newspaper and discard in trash.

Treat pets with a registered flea and tick control
product prior to re-entry.

STORAGE AND DISPOSAL

STORAGE: Store in a cool, dry area inaccessible
to children and pets.

DISPOSAL: Do not reuse empty container. Wrap
container and put in trash collection.

This container is sold by weight, not by volume.
You can be assured of proper weight even though
some settling of contents normally occurs during
transportation and handling.
