DIRECTIONS CAREFULLY BEFORE USE**

Remove protective cap. Point spray nozzle towards nest, crevice or hole where infestation or insects are known to be inside. Press center of valve tap all the way down and spray area until saturated with this insecticide. Also spray around this area until completely wet with Wasp Spray. This treated surface will have a residual killing action and prevent reinfestation for 2 to 4 weeks. In the event the insecticide film becomes ineffective due to rain or other causes repeat treatment. In outdoor use, user should always spray Wasp Spray with the wind at the user's back.

DUE TO THE POWERFUL SPRAYING ACTION OF WASP SPRAY IT IS NOT RECOMMENDED FOR INDOOR USE.

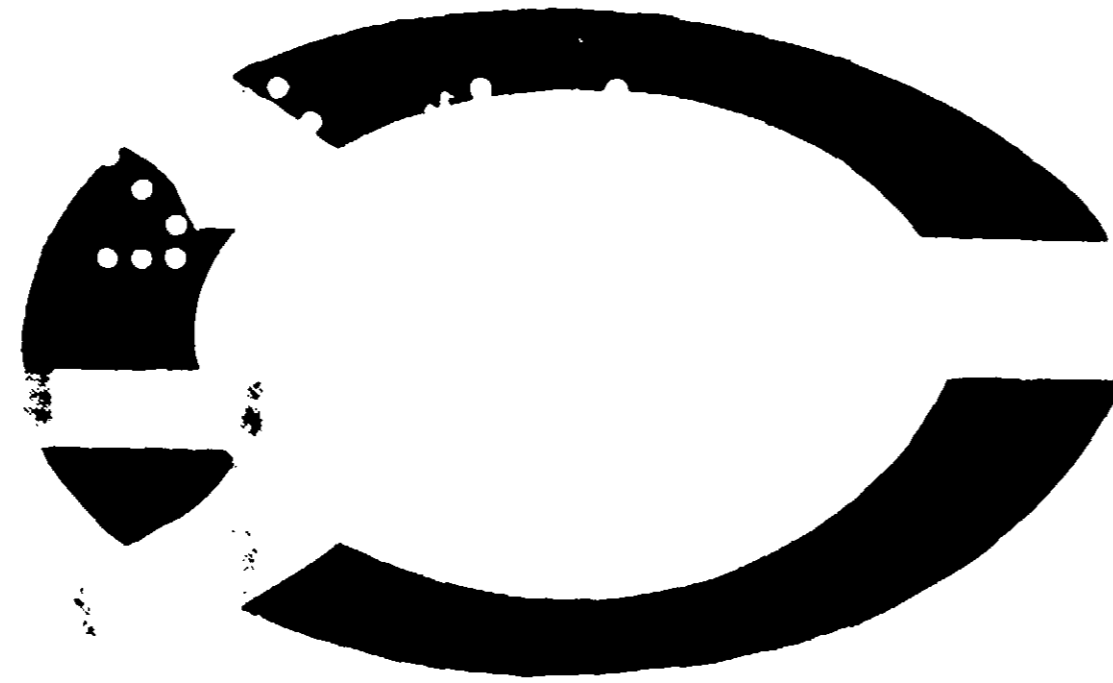

USDA REG. NO. 4792-10

CAUTION HARMFUL IF SWALLOWED.

Wash hands well with soap and water after using or if insecticide contacts skin. Do not apply on persons. Repeated or prolonged contact with skin can cause toxic symptoms. Avoid inhalation of spray. Avoid spraying in or around food or cooking utensils. Do not spray on pets or other warm blooded animals. Do not apply on vegetation. Do not spray on asphalt tile. Store below 120° F. Do not puncture container or throw in fire. Do not set container in direct sunlight, on radiators, stoves, or other sources of direct heat.

CAUTION:
Contents under pressure.
NET WEIGHT 14 OZ.

GLOBE
