**READ OTHER CAUTIONS ON BACK OF LABEL**

# Athey's

**CONCORD COPPER PAINT is a durable red copper paint containing an anti-fouling copper pigment that aids in the control of marine growths on Ship Bottoms.**

**DIRECTIONS FOR USE**

Stir paint thoroughly prior to using and stir at frequent intervals during application. On new wooden surfaces point up all cracks and holes. Apply two coats of CONCORD COPPER PAINT allowing overnight drying between coats. On old wood surfaces remove all loose, scaling, cracking, and blistered paint by scraping or burning. Surface must be free of dirt, grease, oil and foreign matter of all kinds before painting. Metal surfaces require special treatment. Wire brush or sand all rust spots, removing all loose rust and scale. Apply a priming coat of ATHEY'S RUST INHIBITING METAL PRIMER. Apply two coats of CONCORD COPPER PAINT as directed above for wood surfaces. Coverage 400-500 sq. ft. per gallon.
