CODE 723.70

EPA Reg. No. 4816-331  
EPA Est. No. 279-NV-1

A highly concentrated Pyrethron<sup>®</sup> insecticide. Dilute in water or oil before use. For outdoor or indoor application as a fog or spray.

ACTIVE INGREDIENTS:  
Pyrethrins . . . . . 6.0%  
Piperonyl Butoxide, Technical . . . . . 60.0%  
Petroleum Distillate . . . . . 20.0%  
INERT INGREDIENTS: . . . . . 14.0%  
100.0%

Equivalent to 48 (butylcarbitol(6-propylpiperonyl) ether and 12 related compounds)

**KEEP OUT OF REACH OF CHILDREN.**

**CAUTION**

Harmful if swallowed.  
See side panel for additional precautionary statements.

PYRETHRON<sup>®</sup> - Registered trademark of Fairfield American Corporation

BATCH

72370 1Q 278

**ACCEPTED MOSQUITO QUITO SPRAY CONCENTRATE**  
JUN 1 1978

Approved for use on the following insects: Mosquitoes, Gnats, Small flying moths, Houseflies, and other public health biting insects. Do not use on fish, birds, or other domestic animals.

4816-331  
CAUTION  
Covered during treatment. All food processing surfaces should be covered during treatment or thoroughly cleaned before using. When using the product in these areas, apply only when the facility is not in operation.

**ENVIRONMENTAL HAZARDS**

This product is toxic to fish. Keep out of lakes, streams or ponds. Do not contaminate water by cleaning of equipment or disposal of wastes. Apply this product only as specified on this label.

Do not apply outdoors when weather conditions favor drift from areas treated.

**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

**STORAGE AND DISPOSAL**

Do not reuse empty container.  
Wrap container and put in trash collection.

This is a highly concentrated product designed to be diluted before use in either water or oil. The resulting spray should be dispersed through good fogging or spraying equipment.

NET CONTENTS 1 QUART  
NET CONTENTS 2.08 POUNDS

**ACCEPTED MOSQUITO QUITO SPRAY CONCENTRATE**

**OUTDOOR GROUND APPLICATION**

To control: Adult Mosquitoes, Gnats, Small flying moths

Use the following dilution and application rates:

Concentration	Dilution Water or Oil	Diluted Area to be Sprayed	Use Rate
3 tbls.	1 quart	3 fl.-oz.	2000 sq. ft.
5 1/2 fl.-oz.	1 gallon	12 fl.-oz.	8000 sq. ft.
2 gallons	50 gallons	1 gallon	1 acre

Apply as a fog or fine mist. Treat entire area with particular attention to shrubbery and vegetation where insects may rest, also low or marshy areas, shore lines and stagnant pools or ponds. Repeat as necessary, usually once or twice a week.

With mobile or truck mounted equipment, the above application rate will result assuming a 400 foot swath width, traveling at 5 miles per hour, dispensing 125 gallons of spray per hour.

**To control mosquito larvae:**

Dilute at the rate of 7 ounces per 50 gallons of oil and apply at the rate of 20 to 25 gallons per acre. Apply as a fog or fine mist uniformly over wet lands, swamps, marshes or bodies of water where larvae may breed. Do not exceed this dosage or fish kill may result.

**AIRCRAFT APPLICATION: FIXED WING AIRCRAFT**

To control: Adult mosquitoes

Dilute 1 to 2 ounces of concentrate in 4 gallons of water per acre.

**INDOOR USE**

This spray may be used in food processing plants, homes, restaurants, hospitals, stores, hotels, motels, schools and other public health buildings, in dairies, barns, canneries, breweries and food handling establishments.

To control: Gnats, Small flying moths, Flies, Mosquitoes

Dilute 2 tablespoons or 0.6 ounces of concentrate per gallon of water or oil. Remove pets, birds and cover fish aquaria before spraying. Close windows and doors and shut off ventilating systems. Direct spray toward upper portions of room, thoroughly filling the area with mist. Do not re-mist in treated areas. Ventilate the area after treatment is completed. Repeat treatment when re-infestation occurs.

**To control accessible stages of:**

- Ants
- Cockroaches
- Crickets
- Confused Flour Beetles
- Gadflies
- Cheese Skippers
- Cheese Mites
- Grain Beetles
- Greasy Mite
- Rust Flour Beetles
- Rice Weevils
- Sawtoothed Grain Beetles
- Silverfish
- Spiders

Dilute at the rate of 2 ounces of concentrate per gallon of water or oil. Apply as a surface spray in good machine adjusted to deliver a coarse spray at the rate of 1 gallon to 750 square feet. Thoroughly spray walls, floor, shelves, pallets with particular attention to cracks and crevices where insects hide. Spray ant runs, trails, baseboards, thresholds and other places of entry and treat nests liberally. Repeat when needed.

Buyer assumes all risks of use of this material. Listing of this material does not constitute an endorsement with directions given herein.

PRECAUTIONARY STATEMENTS  
HAZARDS TO HUMANS & DOMESTIC ANIMALS

CAUTION

Food should be removed or covered during treatment. All food processing surfaces should be covered during treatment or thoroughly cleaned before using. When using the product in these areas, apply only when the facility is not in operation.

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Keep out of lakes, streams or ponds. Do not contaminate water by cleaning of equipment or disposal of wastes. Apply this product only as specified on the label.

Do not apply outdoors when weather conditions favor drift from areas treated.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

STORAGE & DISPOSAL

Do not contaminate water, food or feed by storage or disposal. Open dumping is prohibited. Pesticide, spray mixture or rinsate that cannot be used or chemically reprocessed should be disposed of in a landfill approved for pesticides or buried in a safe place away from water supplies. Reseal container and offer for reconditioning or triple rinse (or equivalent) and offer for recycling, reconditioning or disposal in approved landfill or bury in a safe place. Consult Federal, state or local disposal authorities for approved alternative procedures.

This is a highly concentrated product designed to be diluted before use in either water or oil. The resulting spray should be dispersed through good fogging or spraying equipment.
