Pyrenone[®]

DIAZINON

DUAL USE E.C.

Residual Insecticide

EPA Reg. No. 4816-535 EPA Est. No. 279-NY-1

**Only For Sale To, Use And Storage By
Servicepersons**

ACTIVE INGREDIENTS:

Pyrethrins.....	3.33%
*Piperonyl Butoxide, Technical.....	18.61%
*Diazinon.....	32.02%
Xylene Range Aromatic Solvent.....	21.91%
Petroleum Distillate.....	13.33%
INERT INGREDIENTS	100.00%

*Equivalent to min. 13.31% (butylcarbitol)
.(6-propylpiperonyl) ether and 3.33% related
compounds.

**0,0-Diethyl 0-(2-isopropyl-6-methyl-
4-pyrimidinyl) phosphorothioate

PYRENONE - Registered Trademark of
Fairfield American Corporation

ACCEPTED
with COMMENTS
EPA Letter Dated:

JUN 28 1984

Under the F.F.P. (Fungicide, Fumigant, and Plant
as amended, for the purpose of being
registered under EPA Reg. No. 4816-535

KEEP OUT OF REACH OF CHILDREN
WARNING
May be fatal if swallowed.
See back panel for additional
precautions.

DIRECTIONS FOR USE

It is a violation of Federal law to use this
product in a manner inconsistent with its
labeling.

BATCH

Printed in USA

This product is not intended for use as a
space spray.

Do not use at any time in edible product
areas of Federally inspected meat and poultry
plants.

This concentrate is designed to be diluted
with either water or oil. The dilution rate
is 2 oz. concentrate to 1 gallon water or oil.
When diluting with water, prepare only the amount
needed for immediate use. Holding a water dilu-
tion more than 24 hours is not recommended. Agi-
tate occasionally. For oil dilutions in food hand-
ling establishments, a deodorized petroleum oil
which conforms with CFR21 especially section 172.884,
is required, such as Exxon Isopar M, Ashland Low
Odor Base Solvent or their equivalents.

Application Within Food Handling Establishments
(Places other than private residences in which
exposed food is held, processed, prepared or
served) including, But Not Limited To areas for
receiving, storage, packing (canning, bottling,
wrapping, boxing), preparing, edible waste stor-
age and enclosed processing systems (mills,
dairies, edible oils, syrups) and serving areas
(when food is exposed and facility is in
operation). For crack and crevice treatment in
and around both food and non-food areas to
control cockroaches, ants, waterbugs, silver-
fish, spiders and crickets, apply in small
amounts directly into cracks and crevices using
equipment capable of delivering a pin stream of
insecticide, in points between different
elements of construction, between equipment and
floor, openings leading to voids and hollow
spaces in walls, equipment legs and bases, in
conduits, motor housings, junction or switch
boxes. For control of the above insects, in
the food handling establishments using a spot
treatment, a coarse low pressure spray shall
be used. Application is limited to floor
surfaces only and to 20 percent of the surface
area. Any individual spot treatment shall not
exceed 2 square feet. NOTE: Prior to above
applications deenergize electrical equipment.
After application allow time for oil to
evaporate before starting motors or placing
switches in "ON" position. Care should be
taken to avoid depositing the product onto
exposed surfaces or introducing the material
into the air. Avoid contamination of food and
food processing surfaces.

CODE 722.70

APPLICATION OF THIS PRODUCT IN THE FOOD AREAS OF FOOD HANDLING ESTABLISHMENTS OTHER THAN AS A SPOT AND/OR CRACK AND CREVICE TREATMENT ARE NOT PERMITTED.

Serving Areas:

Facilities where foods are served such as dining rooms, but excluding areas where foods may be prepared or held, apply as a spot treatment as described above. Avoid treating surfaces likely to be contacted by food. (Do not apply when facility is in operation or foods are exposed).

USE IN NON-FOOD AREAS OF INSTITUTIONS, RESTAURANTS, FOOD PROCESSING PLANTS AND IN AND AROUND HOMES:

Including garbage rooms, lavatories, floor drains (to sewers), entries and vestibules, offices, locker rooms, machine rooms, boiler rooms, garages, mop closets and storage (after canning or bottling). Apply as a spot treatment to baseboard areas, around water pipes, surfaces behind and beneath sinks, lockers, tables, pallets and similar areas where insects hide or through which they may enter. Repeat treatment as required.

To Kill: Ants, Cockroaches, Crickets, Earwigs, Spiders, Silverfish

Thoroughly apply as a spot treatment to areas where these pests are found or may hide, including dark corners of rooms and closets, cracks and crevices, along baseboards and door sills and frames, behind and beneath sinks, stoves, refrigerators and cabinets and around garbage cans, plumbing and other utility installations. Pests driven out of hiding places should be sprayed directly. Spray ant trails, nests and points of entry.

To Kill: Carpet Beetles

Thoroughly apply as a spot treatment to the edges of, and under carpets and rugs, floors and baseboards and spray cracks, crevices, closets and infested areas of shelving. Repeat treatment if reinfestation occurs.

To Kill: Flies, Mosquitoes

Use only on outdoor surfaces. Spray outside surfaces of window and door frames and other areas where these pests may enter the home. Also spray dark corners and localized resting areas, such as under eaves, porches, partitions and in garages where these insects may congregate. Flies and mosquitoes coming to rest on treated surfaces will be killed. Repeat treatment when effectiveness diminishes.

To Kill Outdoors: Ants, Chiggers, Fleas

For treatment of localized infestations of these insects in outdoor areas, spray weeds and bushy non-crop areas around the home or buildings thoroughly. Avoid spraying desirable plants for ants, thoroughly wet hills and runways. Repeat application as reinfestation occurs.

To Kill Brown Dog Ticks

For rapid removal of brown dog ticks in cellars, animal quarters, kennels or where infestation occurs, apply as a spot treatment in a good machine adjusted to deliver a coarse low pressure spray. Apply with special attention to cracks and crevices and other insect hiding places. Fresh bedding should be provided for animals after treatment. Do not treat animals. Repeat treatment as necessary.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

PESTICIDE DISPOSAL:

Pesticide, spray mixture or rinse water that cannot be used according to label instructions must be disposed of according to applicable Federal, State or local procedures.

CONTAINER DISPOSAL:

Triple rinse (or equivalent) then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other approved State and local procedures.

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS & DOMESTIC ANIMALS**

WARNING

Harmful if swallowed. Avoid breathing spray mist. Avoid skin and eye contact. Wash thoroughly after handling and before eating or smoking. Do not allow children or pets to contact treated surfaces until spray has dried. Do not spray air in rooms or use on plants. Apply as a surface spray only. Do not allow spray to contact food, feedstuffs or water supplies. Thoroughly wash and rinse with potable water dishes and food handling utensils contaminated with this product. Remove pets, birds and cover fish aquariums before spraying.

STATEMENT OF PRACTICAL TREATMENT

If Swallowed: Call a physician or Poison Control Center immediately. Gastric lavage is indicated if material was taken internally. DO NOT INDUCE VOMITING. Vomiting may cause aspiration pneumonia. **If Inhaled:** Remove victim to fresh air. Apply artificial respiration if indicated. If on face, remove contaminated clothing and wash affected areas with soap and water. **If in Eyes:** Flush eyes with plenty of water. Call a physician immediately.

NOTE TO PHYSICIAN

Diazinon is a cholinesterase inhibitor. If signs of cholinesterase inhibition are present Atropine is antidotal. 2-PAM may be administered in conjunction with Atropine.

ENVIRONMENTAL HAZARDS

This product is toxic to fish, birds and other wildlife. Do not apply directly to lakes, streams or ponds. Do not contaminate water by cleaning of equipment or disposal of wastes. Apply this product only as specified on this label.

Buyer assumes all risks of use, storage or handling of this material not in strict accordance with directions given herewith.

ZIRP

Dear Ms. Theodore:

Subject: Amendment - Specify Acceptable Diluting Oil
Pyrenone Diazinon Dual E.C.
EPA Registration No. 4816-535
Your Application Dated June 12, 1984

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable. A stamped copy is enclosed for your records.

At the next label printing revise "Harmful if swallowed" to "May be fatal if swallowed" under the heading Hazards to Humans & Domestic Animals.

Sincerely yours,

George T. LaRocca
