JUL 22-1974

NET WEIGHT

40 LBS.

EPA Reg. No. 4816-353  
EPA Est., 279-NY-1

ACTIVE INGREDIENTS

Pyrethrins .....	1.00%
*Piperonyl Butoxide, Technical .....	10.00%
Amorphous Silica Gel .....	40.00%
Petroleum Hydrocarbons .....	49.00%
	100.00%

\*Equivalent to 8.0% (butylcarbityl)  
(6-propylpiperonyl) ether and 2.0%  
of related compounds.

CAUTION

KEEP OUT OF REACH OF CHILDREN.

Avoid Inhalation

Do not reuse container. Bury with wastes.

This product is toxic to fish. Keep out of lakes, streams or ponds. Do not apply where runoff is likely to occur. Do not apply when weather conditions favor drift from areas treated. Do not contaminate water by cleaning of equipment, or disposal of wastes. Apply this product only as specified on this label.

This product is a finely divided powder which combines the flushing and killing powers of pyrethrins and piperonyl butoxide with the dehydrative principle of thermally attrited hydrogel. It is relatively odorless and non-staining and may be used in accordance with directions in homes, restaurants, stores, hotels, offices, plants and warehouses. When used as directed, it is highly effective in controlling such insects as ants, roaches, silverfish, bed bugs, fleas, lice, ticks and dry wood termites.

DIRECTIONS FOR USE

APPLICATIONS WITHIN FOOD AREAS OF FOOD HANDLING ESTABLISHMENTS

Food processing plants and warehouses, bakeries, beverage plants, restaurants, supermarkets, meat and poultry processing plants, hotels, motels, hospitals and schools:

Limited to Crack and Crevice Treatment Only - Using a bulbous duster apply a small amount of material directly into cracks and crevices such as expansion joints between different elements of construction or between equipment bases and the floor, wall voids, motor housing, junction boxes or switch boxes, conduits or hollow equipment legs where roaches, ants, silverfish, spiders and crickets hide. Care should be taken to avoid depositing the product onto exposed surfaces or introducing the material into the air. Avoid contamination of food or food processing surfaces.

APPLICATIONS OF THIS PRODUCT IN THE FOOD AREAS OF FOOD HANDLING ESTABLISHMENTS, OTHER THAN AS A CRACK AND CREVICE TREATMENT, ARE NOT PERMITTED.

NON FOOD AREAS:

Homes, institutions, hospitals, office buildings, hotels, motels, theaters and schools:

To control such running and crawling insect life as ants, cockroaches, silverfish, and fleas in animal quarters, distribute Drione at the rate of 2 ounces per 100 square feet of surface area. Apply a continuous visible film underneath and behind stoves, refrigerators and appliances. Treat on, around and behind moulding, shelving, baseboards, pipe openings, cracks, crevices and other areas where insects may hide. For severe infestations apply Drione behind cabinets and walls, in crawl spaces and attics, at the rate of 16 ounces per 1000 square feet of surface area. Repeat treatment as necessary.

SEWER TREATMENTS: American and Oriental cockroach infestations in sanitary sewers may be treated with approximately 0.3 lb. Drione per manhole. When treating sewers, one manhole per 200 feet of line should be treated. Treatments are made by removing the manhole cover and replacing with a disc of plywood bored to receive the usual flexible hose from portable or truck-mounted ventilating equipment; 0.3 lb. of Drione is introduced into the ventilating air, to be dispersed quickly and thoroughly through the system.

BED BUGS: Take bed apart. Dust into joints and channels. If hollow, such as square or round tubing, see that the interior of framework is well dusted. Mattress should be dusted, especially tufts, folds and edges. Picture frame moldings and all cracks and crevices in the room should be treated.

DRY WOOD TERMITES: These termites are restricted to certain parts of the country and should not be confused with Subterranean termites. Use an electric or hand operated rotary duster to distribute Drione through and entry e.g., crawl hole into the attic and the crawl space of the building. Rate of application is recommended at one (1) pound per 1,000 square feet of floor area. All wood surfaces must be covered. All vents and louvers on the windward side to be closed.

FLEAS - Dogs and Cats: Liberally apply powder to the animal, rubbing thoroughly to the skin. Begin with the neck and include the underbody, legs, feet, and the base of the tail. Repeat as necessary. Surfaces of kennels should be dusted at rate of one ounce per 50 square feet. Heavily infested lawns, basements and crawl spaces should be dusted at rate of 16 ounces per 1000 square feet. Repeat as necessary.

Dealers Should Sell In Original Packages Only.

TERMS OF SALE OR USE: On purchase or use of this product buyer and user agree to the following conditions:

WARRANTY: FMC warrants that this product, as of the time of sale by FMC, (1) conforms to the ingredient statement on the label, and (2) is reasonably fit for the purposes set forth in the Directions for Use. EXCEPT AS SO WARRANTED THE PRODUCT IS SOLD AS IS. FMC MAKES NO OTHER WARRANTY EXPRESS OR IMPLIED.

DAMAGES: Buyer's or user's exclusive remedy for damages for breach of warranty or negligence shall be limited to direct damages not exceeding the purchase price paid and shall not include incidental or consequential damages. Notice of any claim must be reported to FMC within 10 days of discovery by buyer or user, failing which buyer or user waives any claim for such damage.

EXCUSE FROM NON-CONTROLLABLE CONDITIONS: Because of certain critical conditions created or incurred by buyer or user or over which FMC has no control, buyer and user, as a condition of purchase or use, assume responsibility for and release FMC from, liability arising out of the handling or use of the product attributable to such causes. No person is authorized to vary or waive any statement contained herein.
