

**ACCEPTED**  
 MAY 1 1975  
 (Use of this label is subject to the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, for the pesticide registered under EPA Reg. No. 4816-367)

**DIRECTIONS FOR USE**

**TO OPERATE:** Hold can upright and press actuator button.

**FOOD HANDLING ESTABLISHMENTS:** Places other than private residences in which exposed food is held, processed, prepared or served.

**FOOD AREAS - APPLICATION LIMITED TO CRACK AND CREVICE TREATMENT ONLY**

Includes areas for receiving, storage, packing (canning, bottling, wrapping, boxing) preparing, edible waste storage and enclosed processing systems (mills, dairies, edible oils, syrups) and serving areas (when food is exposed and facility is in operation).

To control ants, cockroaches, and silverfish, apply in small amounts directly into cracks and crevices using an injection or insertion tube, in points between different elements of construction, between equipment and floors, openings leading to voids and hollow spaces in walls, equipment legs and bases and in conduits, motor housings, junction or switch boxes. Prior to application de-energize electrical equipment. After application allow time for oil to evaporate before starting motors or placing switches in the "ON" position.

Care should be taken to avoid depositing the insecticide onto exposed surfaces or introducing it into the air. Avoid contamination of food or food processing surfaces.

**APPLICATIONS OF THIS PRODUCT IN THE FOOD AREAS OF FOOD HANDLING ESTABLISHMENTS OTHER THAN AS A CRACK AND CREVICE TREATMENT ARE NOT PERMITTED.**

**SERVING AREAS -** Facilities where foods are served such as dining rooms, but excluding areas where foods may be prepared or held, apply as a spot treatment to selective surfaces, such as baseboards, under elements of construction and into cracks and crevices. Avoid treating surfaces likely to be contacted by food. (Do not apply when facility is in operation or foods are exposed.)

**NON-FOOD AREAS:** Including garbage rooms, lavatories, floor drains (to sewers) entries and vestibules, offices, locker rooms, machine rooms, boiler rooms, garages, mop closets and storage (after canning or bottling). Apply as a spot treatment to baseboard areas, around water pipes, surfaces behind and beneath sinks, lockers, tables, pallets and similar areas where insects hide or through which they may enter. Repeat treatment as required.

To control fleas in animal quarters, treat bedding, floor and floor coverings and any areas where fleas may hide. If left undisturbed, a deposit of Drione will continue to kill cockroaches for several weeks. Repeat application when effectiveness diminishes.

To control bed bugs take bed apart and treat cracks, joints and interior of framework. Mattress should be treated, especially tufts, folds and edges.

**Caution**

Avoid breathing of vapor or contact with skin. Avoid contamination of food and foodstuffs.

Do not use in edible product areas of food processing plants, restaurants or other areas where food is commercially prepared or processed. Do not use in serving areas while food is exposed.

**WARNING:** Contents under pressure. Do not puncture. Do not use or store near heat or open flame. Exposure to temperatures above 130°F may cause bursting. Never throw containers into fire or incinerator.

\*Fast Acting Spray Powder

\*Residual to Roaches

Controls: Ants, Roaches, Silver Fish, Bed Bugs and Fleas

Acceptable for use in inedible product areas of Federally Inspected Meat and Poultry Plants.

Active Ingredients:

Pyrethrins . . . . .	0.1%
Piperonyl Butoxide, Technical* . . . . .	1.0%
Silica Gel . . . . .	4.0%
Petroleum Distillate . . . . .	4.9%
Inert Ingredients . . . . .	90.0%
	100.0%

\*Equivalent to 0.8% of (butylcarbityl) (6-propylpiperonyl) ether and 0.2% of related compounds.

DRIONE - FMC Trademark

**CAUTION  
 KEEP OUT OF REACH OF  
 CHILDREN.**

See rear panel for additional precautions

Net Weight - 1 Pound
