## DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

STORAGE AND DISFOGAL

DISPOSAL: Wrap container and put in trash collection.

ECA Reg. No. 4816-382

EFA Est. No. 279-NY-1

SHAKE WELL .FORE EACH USE. Remove protective cap. Aim apray supering away from people. Push button to spray.

INDOORS - For house files, mosquitoes and gnats: Close al. doors and windows. Point nozzle upward. Direct the spray mist to all parts of the room, especially windows and other light sources which attract these insects. Fill the room with mist, then leave the treated area. Keep the room closed j for at least 15 minutes. Ventilate the room when treatment is completed.

INDOORS - FOR CRAWLING INSECTS:
Roaches, earwigs, grain mites, sowbugs, spiders,
and centipedes: Spray thoroughly into hiding
places such as cracks, crevices, moist areas,
openings around pipes and sinks, under refrigerators, baseboards and storage areas. Spray directly on insects where possible. Repeat as necessary.

Ants: Spray trails, nests and points of entry.

Spray on ants where possible. Repeat as necessary.

OUTDOORS - TO KILL FLYING INSECTS:

Spray areas infested with mosquitoes, house flies, gnats (midges), biting flies and flying moths (millers). Follow precautions listed above. Hold container 18 to 24 inches from shrubs, busnes and grassy areas. Spray these areas with a slow sweeping motion at the rate of from 1 to 3 seconds per cubic yard of space while moving away from the treated area. To reduce annoyance from these flying insects, treat open porches and patios in a similar manner. Spray only when the air is still. Allow spray to dissipate before occupying the treated area. Repeat as necessary.

OUTDOORS - TO PROTECT ORNAMENTAL PLANTS

To control aphids, exposed thrips, adult white flies, leafhoppers, plant bugs, spittlebugs and Japanese beetles on smaller rhododendrons, pines, spruces, hemlocks, spireas, dogwoods, palms, mimosas, toyons, viburnums, euonymus, oaks, maples, locusts, forsythias and altheas, and mimosa webworm larvae on mimosas, spray directly on insects. Hold container 18 inches from the infested plants.

pray in short spray bursts of 1 to 3 seconds or spray at the rate or one linear foot of growth per second. Direct spray to all sides covering foliage until slightly moist. Avoid heavy wetting. Repeat as necessary to obtain control.

Spray peonles, irises, zinnias, snapdragons, ageratums, chrysanthemums, nasturtiums, daisies, geraniums, marigolds, daphnes, fatshederas, evy, tobiras, queen sagos and broadleaf acocias for control of aphids, exposed thries, adult while files, leafhoppers, plant bugs, spittlebugs and Japanese beetles. Spray as directed above.

Ornamental Quinces, Junipers, Cypresse Gamanemental ...
Mulberries, Ash, Cotoneasters, Roses, Camellius ...
Azaleas, Pyrecarthas and Caenothus may also be treated to control the above pests, but assessit ...
extreme caution. Certain varieties have shown some leaf burn under certain conditions of use such as heavy dosage. Repeat as necessary to obtain control.

OUTDOORS - TO PROTECT HOUSE PLANTS Spray infested African violets, philodendrons, geranlums, begonias, coleus for control of listed pests. Pepeat application as necessary.

OUTDOORS - TO CONTROL NUISANCE PESTS

Ants: Spray trails, nests and points of entry.

Spray on ants where possible. Repeat as necessary.

Wasps: Application should be made in late evening when insects are at rest. Spray liberally into hiding and breeding places contacting as many insects as possible. Repeat as necessary.
