piperonyl) ether and 0.12% related compounds

EPA Reg. No. 4316-386
EPA Est. No. 279-NY-1

**KEEP OUT OF REACH OF CHILDREN.
CAUTION**

Harmful if swallowed or inhaled. Avoid contact with skin.

See rear panel for additional precautions.

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS & DOMESTIC ANIMALS**

Harmful if swallowed or inhaled. Avoid breathing of spray mist. Avoid contact with skin; wash thoroughly after use. Avoid contamination of feed and foodstuffs. Do not treat or cause exposure of kittens or puppies less than four weeks old.

PHYSICAL OR CHEMICAL HAZARDS

Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130 F may cause bursting.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

STORAGE AND DISPOSAL

Do not incinerate. Wrap container and put in trash collection.

Remove protective cap, hold container upright, nozzle away from you. With nozzle 10 to 12 inches away, direct spray over the animal, beginning at the tail, spray over the animal until the entire coat is damp up to the back of neck. On long-haired dogs and cats, ruffle the coat and spray against the lay of hair, spraying directly behind hand so that spray reaches skin. For best results in controlling tick infestations, locate ticks and spray directly on them. Avoid spraying face and scrotum. An application of 30 to 45 seconds is usually sufficient for an average size dog, for cats about 10 seconds is adequate. Repeat application weekly if necessary.

NOTE: Do not treat or cause exposure of kittens or puppies less than four weeks old.

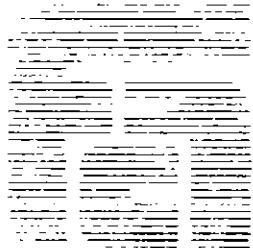

In kennels or other sleeping quarters to control these insects and to deodorize the quarter, spray the animal regularly as above and spray bedding, wells, cracks, crevices and flooring as often as necessary.

Buyer assumes all risks of use, storage or handling of this material not in strict accordance with directions given herewith.
