USE INSTRUCTIONS

The use of this product in food processing plants should be confined to time periods when the plant is not in operation. Food should be removed or covered before treatment. All food processing surfaces should be covered during treatment or thoroughly cleaned before using.

Remove any birds, pets, or fish aquaria before spraying.

When diluting with water, prepare only the amount needed for immediate use. Holding a water dilution more than 24 hours is not recommended. Agitate occasionally. For oil dilutions, a deodorized petroleum oil is recommended.

Vacate premises after treatment and ventilate before reoccupying. Sweep up and remove dead insects.

Repeat treatment when reinfestation occurs.

DIRECTIONS

For maximum effectiveness, a combination of localized surface application and space treatment is recommended.

AS A SURFACE SPRAY: For initial clean up of severe insect infestations, dilute at a rate of 1 part concentrate in 4 parts water or oil. This dilution may not be used in edible product areas of federally inspected meat and poultry plants. In these plants and for normal infestations, dilute 1 part concentrate in 8 parts water or oil.

To control roaches, ants, silverfish spiders, crickets, clover mites, cheese mites, granary weevil, rice weevil, confused flour beetles, rust red flour beetles, saw-toothed grain beetles, spider beetle, cigarette beetle, drugstore beetles, meal worm, grain mites, and sawflies: Use a good sprayer adjusted to deliver a coarse wet spray. Direct the spray into hiding places, cracks and crevices, under pallets, around containers of stored food, around the base of machinery, behind shelves and drawers. For silverfish, spray hook cases. For ants, spray trails, nests and points of entry. If surface application only is to be used, spray floors, walls and other surfaces applicable at a rate of 1/2 ounce to 7/8 ounce per 100 sq. ft. of surface.

For control of carpet beetles, spray crevices of carpeting and under carpet padding. Make localized application to floor and wall boards. Spray directly into cracks, closets, and into the crevices of shelving, cupboards, and other areas.

For control of flies, spray crevices, hiding places, and other areas where they breed. For control of house flies, spray directly into cracks, closets, and into the crevices of shelving, cupboards, and other areas.

# PYRENONE INDUSTRIAL SPRAY

## EMULSIFIABLE CONCENTRATE

EPA Reg. No. 4816-416

### A FOOD INDUSTRY INSECT SPRAY

May be diluted with either water or oil

The Insecticidal Components, Piperonyl Butoxide and Pyrethrin, are Classified as Food Additives and When This Product is Used as Directed, Acceptable Tolerance Levels will not be Exceeded.

ACTIVE INGREDIENTS:

Pyrethrin	1.0
Piperonyl butoxide (technical)	10.0
Petroleum Distillate	79.0
INERT INGREDIENTS	10.0

\*Equivalent to 8.0% (technical) of propylpiperonyl ether or to 2.0% of related compounds.

**CAUTION**  
**KEEP OUT OF REACH OF CHILDREN.**

SEE SIDE PANEL FOR ADDITIONAL CAUTIONS

Net Contents 1 Gallon

PYRENONE - Registered Trademark of FMC Corporation

Manufactured by  
FMC CORPORATION  
AGRICULTURAL CHEMICAL DIVISION  
Millsboro, Delaware

DIRECTIONS FOR USE (CONT.)

To control fleas and brown dog ticks: Thoroughly spray infested areas, pet beds, resting quarters, nearby cracks and crevices, along and behind base boards, moldings, window and door frames and localized areas of floor and floor covering. Fresh bedding should be placed in animal quarters following treatment. Concurrent treatment of animals with an approved insecticide is recommended. Repeat treatment as needed.

AS A SPACE SPRAY: Dilute at a rate of 1 part concentrate to 10 parts water or oil. Apply with mechanical or compressed air equipment (non-thermo) adjusted to deliver a fine mist. Close doors and windows and shut off ventilating systems. For rapid control of the fruit flies, gnats, mosquitoes, skipper flies, wasps, hornets, Angoumois grain moths, Mediterranean flour moths, Indian meal moths, and tobacco moths: direct spray at an upward angle distributing it uniformly through the entire area at a rate of 1 ounce per 1000 cubic feet of space. Keep area closed for at least 10 minutes. Ventilate and sweep up dead insects before reoccupying.

VAPOR SPRAY: For rapid kill of exposed or accessible stages of the insects named on this label, dilute 1 part concentrate to 1 to 9 parts water or oil. Apply using conventional mechanical or compressed air equipment (not thermo), following directions for space spraying. Apply the above dilutions at ratio from 1 to 10 ounces per 1000 cubic feet of space.

When used in meat and poultry processing plants, a dilution of no less than 1 to 1 (50%) is acceptable and it must be dispersed from equipment adjusted to deliver an aerosol spray (no droplets over 50 microns in diameter and 80% less than 30 microns.)

CAUTION: Harmful if swallowed.

This product is toxic to fish. Keep out of lakes, streams, and ponds. Do not contaminate water supplies by leaking of equipment or disposal of wastes.

Apply this product only as directed on the label.

This container may be reused after thorough cleaning.

Dealers Should Sell in Original Packages Only.

TERMS OF SALE OR USE: On purchase or use of this product buyer and user agree to the following conditions: WARRANTY: FMC warrants that this product, as of the time of sale by FMC: (1) conforms to the ingredient statement on the label; and (2) is reasonably fit for the purposes set forth in the Directions for Use. EXCEPT AS SO WARRANTED THE PRODUCT IS SOLD AS IS. FMC MAKES NO OTHER WARRANTY EXPRESS OR IMPLIED. DAMAGES: Buyer's or user's exclusive remedy for damages for breach of warranty or negligence shall be limited to direct damages not exceeding the purchase price paid and shall not include consequential damages. Notice of any claim must be reported to FMC within 10 days of discovery by buyer or user. EXCUSE FROM NON-CONTROLLABLE CONDITIONS: Because of certain critical conditions created or incurred by buyer or user in use of this FMC product, buyer and user, as a condition of purchase or use, assume responsibility for and release FMC from the following: (1) the handling or use of the product with care and skill; (2) the use of the product with care and skill; (3) the use of the product with care and skill; (4) the use of the product with care and skill.
