DIRECTIONS

To control FLIES, MOSQUITOES, GNATS, and FLYING MOTHS (MILLERS): Apply using a good space sprayer adjusted to deliver a fine mist. Close windows and doors and shut off ventilating systems. Direct spray toward upper portions of the enclosure, filling the atmosphere with mist. Use 2 to 3 ounces per 1000 cubic feet of space. For best results, keep area closed for at least 10 minutes. Vacate treated area and ventilate before reoccupying. Repeat treatment as necessary.

To control Silver Fish, Crickets, and House Spiders, spray thoroughly into hiding places particularly in cracks, crevices, moist areas, around openings for plumbing or wiring, under sinks, cabinets, stoves, refrigerators, pallets. Spray insects directly whenever possible. Repeat treatment as necessary.

To control Ants, spray trails, nests, and points of entry. Spray directly on ants whenever possible. Repeat treatment as necessary.

CAUTION: Harmful if swallowed. Avoid contamination of feed and food stuffs.

The use of this product in food processing plants should be confined to time periods when the plant is not in operation. Foods should be removed or covered before treatment. All food processing surfaces should be covered during treatment or thoroughly cleaned before using.

Remove pets, birds, and cover fish aquaria before spraying. This product is toxic to fish. Keep out of lakes, streams or ponds. Do not contaminate water by cleaning of equipment or disposal of wastes. Apply this product only as directed on the label.

Do not reuse empty container. Destroy by perforating or crushing and burying in a safe place.
