PYRENONE[®] E.C. 10 - 1

Insecticide

EPA Reg. No. 4816-451

Directions for Use

For Formulation of Insecticides Only

ACTIVE INGREDIENTS

Pyrethrins.....	1.00%
*Piperonyl Butoxide, Technical.....	10.00%
**INERT INGREDIENTS.....	89.00%
Inert Ingredients:	100.00%

*Equivalent to 8.0% (butylcarbityl) (6 propylpiperonyl)
ether and to 2.0% of related compounds

Physical data and formulating information is given on the
Product Description Sheet.

Formulator is responsible for providing performance data
to support use label claims.

Environmental and Disposal Cautions

This product is toxic to fish. Keep out of lakes, streams,
or ponds. Do not contaminate water by cleaning of equip-
ment or disposal of wastes.

Do not reuse empty drum. Return to drum reconditioner or
destroy by perforating or crushing and burying in a safe
place.

Dealers Should Sell in Original Packages Only.

Terms of sale or use On purchase or use of this product buyer and
user agree to the following conditions:

Warranty FAC warrants that this product, as of the time of sale by
FAC, (1) conforms to the ingredient statement on the label, and (2)
is reasonably fit for the purposes set forth in the Directions for Use.
Except as so warranted the product is sold as is. FAC makes no
other warranty express or implied.

Damages Buyer's or user's exclusive remedy for damages for breach
of warranty or negligence shall be limited to direct damages not
exceeding the purchase price paid and shall not include incidental or
consequential damages. Notice of any claim must be reported to
FAC within 10 days of discovery by buyer or user, failing which
buyer or user waives any claim for such damage.

Excuse from non controllable conditions Because of certain critical
conditions created or incurred by buyer or user or over which FAC
has no control, buyer and user, as a condition of purchase or use,
assume responsibility for and release FAC from, liability arising out
of the handling or use of the product attributable to such causes. No
person is authorized to vary or waive any statement contained
herein.

PEST ON ORNAMENTAL PLANTS

To control aphids, bagworms, cutworms, grasshoppers, leafhoppers, mealybugs, mites, spittlebugs, thrips, and whiteflies on flowers, shrubs, vines, shade and flowering trees and evergreens, dilute this product with water according to directions given in the following table and apply using suitable hand or power spray equipment to provide complete and uniform coverage of infested plants. Avoid over spraying to a point of excessive runoff. Treat when pests appear and repeat at seven to ten day intervals, if needed.

NOTE: Do not use on azaleas, camellias, poinsettias, rose bushes or variegated ivy because of possible injury to these plants.

DOSEAGE AND DILUTIONS FOR USE ON ORNAMENTAL PLANTS

Pests Controlled	Amount of Spray-A-Way In Water To Make		
	3 gals.	10 gals.	100 gals.
Aphids, bagworms, grasshoppers, mites, spittlebugs, whiteflies	1/2 fluid ounce	2 fluid ounces	20 fluid ounces
Cutworms, mealybugs, leafhoppers, thrips	1 fluid ounce	4 fluid ounces	38 fluid ounces

*Equivalent to 4 ounces of chlorpyrifos per 100 gallons

**Equivalent to 8 ounces of chlorpyrifos per 100 gallons

NOTE: Mosquitoes coming to rest on areas treated for control of turf and ornamental plant pests will be killed for varying periods of time after treatment depending on exposure of treated areas to weathering conditions.

WARNING: LAWN AND ORNAMENTAL PLANT PESTS

Keep children and pets off treated areas until spray has dried. Keep out of lawn and garden fish pools and other bodies of water. Fish may be killed if their waters are contaminated with this product. Do not apply where runoff is likely to occur. Do not apply when weather conditions favor drift from areas treated.

AREA CONTROL OF TICKS

To control ticks infesting non-crop land areas, such as picnic areas, camp sites and other recreational areas where these pests are present and create a nuisance or possible public hazard, apply this product in water at the rate of 38 fluid ounces per acre (equivalent to 2 fluid ounces per 2,700 square feet). Use a hydraulic sprayer, mist applicator, knapsack sprayer or other suitable hand or power spray equipment. Treat under brush and on grassy areas, weeds, ground surfaces, and debris using enough spray volume to obtain thorough coverage, usually 40 to 100 gallons per acre.

WARNING (AREA CONTROL OF TICKS)

Do not allow public use of treated areas during application or until spray has dried. Do not apply when weather conditions favor drift from treated areas. Do not apply where runoff into lakes, streams, ponds, or other bodies of water is likely to occur. Fish and crustaceans may be killed if their water is contaminated with this product.

MOSQUITOES

Apply this product to mosquito infested non-crop areas according to the conditions and rates shown in the following table. Mix it with either water or oil, using sufficient spray volume to give uniform area coverage. Apply this spray using suitable application equipment, such as hand or power ground sprayers or mist applicators.

CONDITIONS AND RATES TO USE FOR MOSQUITO CONTROL

Conditions of Area to be Treated	Amount to Use Per Acre (fl. oz.)	Chlorpyrifos (Pounds)	Number of Acres Which 1 Gal. of Concentrate Will Treat
Larval Control			
none to medium negative cover	1.0 to 2.0	0.0125 to 0.0250	130 to 60
Medium to heavy negative cover	2.0 to 3 2/3	0.025 to 0.050*	60 to 35
Adult Control			
light to medium negative cover	2.0	0.025	60
Medium to heavy negative cover	3 2/3	0.050*	35

*The higher dosage will also give faster

knockdown and longer residual control where there is little or no negative cover.

WARNING (MOSQUITO CONTROL)

This product is toxic to shrews, crabs and fish. Do not apply to water containing crustaceans and fish. Consult your state fish and game department before using this product for mosquito control.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

PESTICIDE DISPOSAL:

Pesticide, spray mixture or rinse water that cannot be used according to label instructions must be disposed of according to applicable Federal, State or local procedures

CONTAINER DISPOSAL:

Triple rinse (or equivalent) then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other approved State and local authorities.

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

WARNING

May be fatal if swallowed. May be absorbed through the skin. May be injurious to eyes and skin. Do not get in eyes, on skin or on clothing. Wash thoroughly with soap and water after handling and before eating or smoking. Avoid breathing vapors and spray mist. Do not spray food crops. Keep away from food, feed-stuffs and domestic water supplies.

STATEMENT OF PRACTICAL TREATMENT

If Swallowed: Do not induce vomiting, unless directed by a physician. Contain aromatic petroleum solvent, aspiration is a potential hazard. Call physician immediately.

If On Skin: In case of contact, remove contaminated clothing and immediately flush skin with soap and water. Wash contaminated clothing before reuse.

If In Eyes: Flush eyes with plenty of water. Call a physician.

NOTE TO PHYSICIAN: Chlorpyrifos is a cholinesterase inhibitor. Treat symptomatically. Atropine only by injection is an antidote.

ENVIRONMENTAL HAZARDS

This product is toxic to fish, birds, and wildlife. Do not apply directly to water. Do not apply where runoff is likely to occur. Do not contaminate water by cleaning of equipment or disposal of wastes. This product is highly toxic to bees exposed to direct residue on plants. Protective information may be obtained from your Cooperative Agricultural Extension Services.

CHEMICAL HAZARDS

Do not use or store near heat or open flame.

Buyer assumes all risks of use, storage or handling of this material not in strict accordance with directions given herewith.
