DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

This insecticide may be used outdoors or in greenhouses throughout the entire growing season or as a preharvest treatment when other insecticides are prohibited due to residue restrictions and use limitations. To control insects named on the plants listed below,

use 7.5 to 15 fluid ounces of concentrate in 5 gallons of water or 3 to 5 tablespoons per 1 gallon. (1 tablespoon per quart of water.) Apply to insure thorough coverage of upper and lower leaf surfaces. Use caution on new growth and tender foliage.

Prepare only the amount of spray required. Holding dilute spray more than 24 hours is not recommended.
