JAN 16 1991

Mr. Jan Brill
Fairfield American Corporation
Frenchtown, NJ 08825

Dear Mr. Brill:

Subject: Revised Labels
Tetralate Multi-Purpose Insecticide S.E.C.
EPA Registration No. 4816-470
Your Submission Dated December 19, 1989

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable. A stamped copy is enclosed for your records.

The labeling submitted July 3, 1990, is not acceptable since you did not include the required Environmental Hazards text from the Resmethrin Registration Standard. Submit an updated Confidential Statement of Formula and Generic Data Exemption Form, if appropriate, as required in the Registration Standard.

The claim for mealybug and leafminer on ornamental plants is accepted under this registration and may be used on labeling in commerce.

Sincerely yours,

PFM

TETRALATE®

MULTI-PURPOSE INSECTICIDE S.E.C.

EPA Reg. No. 4816-470

EPA Est. No. 279-NY-1

- Combining Two Highly Active Synthetic Pyrethroid Compounds
- A Water Emulsifiable Insecticide Concentrate
- For Use in Bakeries, Bottling Plants, Canneries, Flour Mills, Food Processing Plants, Hospitals, Hotels, Restaurants, Schools, Horse Barns, and on Ornamental Plants in Homes, Gardens and Greenhouses.

ACTIVE INGREDIENTS

*Tetramethrin	2.50%
Related Compounds	0.34%
Permethrin	2.50%
Related Compounds	0.46%
**INERT INGREDIENTS	94.20%
	100.00%

*1-Cyohexene-1,2-dicarboximidomethyl 2,2-dimethyl-3-(2-methylpropenyl) cyclopropanecarboxylate

**Contains Petroleum Distillate

TETRALATE - Registered Trademark of Fairfield American Corporation.

KEEP OUT OF REACH OF CHILDREN

CAUTION

STATEMENT OF PRACTICAL TREATMENT

IF SWALLOWED: Contact a physician or Poison Control Center immediately. Do not induce vomiting. Vomiting may cause aspiration pneumonia.

IF INHALED: Remove affected person to fresh air. Apply artificial respiration if indicated.

IF ON SKIN: Remove contaminated clothing and wash affected areas of skin with soap and water. Contact a physician if irritation persists.

IF IN EYES: Flush with plenty of water. Contact a physician if irritation persists.

See side panel for additional precautions.

NET CONTENTS _____

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Water dilutions should be prepared at room temperature. Exposure to low temperatures may cause cloudiness or crystallization.

SURFACE SPRAY

This concentrate should be diluted with water before use, at a rate of 1 part concentrate to 9 parts water. The diluted spray should be applied in conventional, mechanical or compressed air spraying or fogging equipment. It is not recommended for use in thermal generating equipment.

To control *Cockroaches, Ants, Spiders, Silverfish, Crickets, Centipedes, Earwigs, Sowbugs and Grain Mites*: Apply as a coarse droplet spray, directed into cracks, crevices and other hiding places, along baseboards, around the bases of machinery and under pulleys. Treat all returned bottle cartons and cases. Spray thoroughly, contacting insects directly whenever possible. Spray badly infested areas whenever possible. Spray badly infested areas daily. In other areas, repeat treatment twice weekly or when reinfestation occurs.

SPACE SPRAY

This concentrate should be diluted with water before use, at a rate of 1 part concentrate to 19 parts water. The diluted spray should be applied in conventional, mechanical or compressed air spraying or fogging equipment. It is not recommended for use in thermal generating equipment.

To control *Houseflies, Mosquitoes, Gnats and Flying Moths*: Close doors and windows and shut off ventilating systems. Apply as a fog or fine mist directing the spray toward the upper portions of the room and toward windows and other light sources which attract these insects. Thoroughly fill the area with mist using 1/2 to 1 ounce per 1000 cubic feet of space. Keep area closed for at least 10 minutes. Vacate after treatment and ventilate before reoccupying. Repeat treatment as needed.

ORNAMENTAL PLANTS

Dilute this concentrate at the rate of 1 part material to 79 parts water. To control *Aphids, Two-spotted Spider Mites and Adult Whiteflies* on ornamental house and garden plants (African Violet, azalea, Christmas cherry, chrysanthemum, cineraria, dieffenbachia, fuschia, gloxinia, ivy, lantana, Neathea bella palm, petunia, rose and snapdragon and on outdoor plants such as azalea, chrysanthemum, euonymus, ivy, marigold, petunia, rose, snapdragon and zinnia). Apply as a

fog or fine mist, spraying plants with a mist that the mist drifts into the plants. Direct the mist on upper and lower portions of leaves are covered. Do not spray on new growth and tender foliage. Do not spray when air is still. Repeat as necessary.

To control *Gypsy Moths and Caterpillars, Caterpillars, Canker Worms, Garden* above pests on ornamental trees, spray bearing fruit trees.

IN HORSE BARN AND ON HORSES:

Dilute 1 part concentrate with 19 parts water. Spray as a fine mist spray to stable area, and over horses to provide quick relief from annoyance and gnats. May also be sprayed directly on horses. **USE OR HORSES INTENDED FOR HUMAN CONSUMPTION.**

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal. **PESTICIDE STORAGE AND SPILL PREVENTION:** Store container upright at room temperature. Avoid extreme temperatures. In case of spill or leakage, absorbent material such as sand, sawdust, etc. Dispose of with chemical waste.

PESTICIDE DISPOSAL: Pesticide, spray water that cannot be used according to label should be disposed of at or by an approved waste disposal authority. **CONTAINER DISPOSAL:** Triple rinse container to offer for recycling or reconditioning, or for use in a sanitary landfill, or by other approved procedures.

CONTAINERS ONE GALLON AND SMALLER: Wrap container in several layers of newspaper and discard in trash.

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS CAUTION

Harmful if swallowed. The use of this product on plants should be confined to time periods when the plants are not in operation. Foods should be removed during treatment and thoroughly cleaned before use. Wash all food and drink with soap and hot water before reuse. Do not use and cover fish aquaria before spraying. Fish and plants must be removed from the area for two hours prior to reentry.
