

FEB 20 1991

Ms. Lucinda Taylor
Fairfield American Corporation
809 Harrison Street
Frenchtown, NJ 08825

Dear Ms. Taylor:

Subject: Add Residences
Tetralate Multi-Purpose Insecticide S.E.C.
EPA Registration No. 4816-470
Your Submission Dated January 23, 1991

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable. A stamped copy is enclosed for your records.

As new labels are prepared, revise the 2 sentences to read "Foods should be removed or covered before treatment. Food handling surfaces should be thoroughly cleaned and rinsed with potable water before using after treatment."

Sincerely yours,

RFM
Richard F. Mountfort

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Water dilutions should be prepared at room temperature. Exposure to low temperatures may cause cloudiness or crystallization.

SURFACE SPRAY

This concentrate should be diluted with water before use, at a rate of 1 part concentrate to 9 parts water. The diluted spray should be applied in conventional, mechanical or compressed air spraying or fogging equipment. It is not recommended for use in thermal generating equipment.

To control *Cockroaches, Ants, Spiders, Silverfish, Crickets, Centipedes, Earwigs, Sowbugs and Grain Mites*: Apply as a coarse droplet spray, directed into cracks, crevices and other hiding places, along baseboards, around the bases of machinery and under pallets. Treat all returned bottle cartons and cases. Spray thoroughly, contacting insects directly whenever possible. Spray badly infested areas whenever possible. Spray badly infested areas daily. In other areas, repeat treatment twice weekly or when reinfestation occurs.

SPACE SPRAY

This concentrate should be diluted with water before use, at a rate of 1 part concentrate to 19 parts water. The diluted spray should be applied in conventional, mechanical or compressed air spraying or fogging equipment. It is not recommended for use in thermal generating equipment.

To control *Houseflies, Mosquitoes, Gnats and Flying Moths*: Close doors and windows and shut off ventilating systems. Apply as a fog or fine mist directing the spray toward the upper portions of the room and toward windows and other light sources which attract these insects. Thoroughly fill the area with mist using 1/2 to 1 ounce per 1000 cubic feet of space. Keep area closed for at least 10 minutes. Vacate after treatment and ventilate before reoccupying. Repeat treatment as needed.

ORNAMENTAL PLANTS

Dilute this concentrate at the rate of 1 part material to 79 parts water. To control *Aphids, Two-spotted Spider Mites and Adult Whiteflies* on ornamental house and garden plants (African violet, azalea, Christmas cherry, chrysanthemum, cineraria, dieffenbachia, fuschia, gloxinia, ivy, lantana, Neathe bella palm, petunia, rose and snapdragon and on outdoor plants such as azalea, chrysanthemum, euonymus, ivy, marigold, petunia, rose, snapdragon and zinnia). Apply as a fog or fine mist, spraying plants with a sweeping motion so that the mist drifts into the plants. Direct spray so that the upper and lower portions of leaves are contacted. Use caution on new growth and tender foliage. When using outdoors, spray when air is still. Repeat as necessary.

To control *Mealybugs and Leafminer*, dilute at the rate of 1

part concentrate to 39 parts water as given above.

To control *Gypsy Moths, Caterpillars, Canker* on above pests on ornamental bearing fruit trees.

IN HORSE BARN

Dilute 1 part concentrate to 19 parts water. Mist sprayed stable area provide quick relief. May also be sprayed on HORSES INTENDED FOR

STORAGE

Do not contaminate water. PESTICIDE STORAGE: Store upright at room temperature. In case of spill of material such as sand, seal off with chemical waste. PESTICIDE DISPOSAL: that cannot be used should be disposed of at or by an approved CONTAINER DISPOSAL recycling or reconditioning landfill, or by other approved CONTAINERS ONE GALLON container. Wrap container and discard in trash.

PRECAUTIONS HAZARDS TO HUMANS

Harmful if swallowed. Treat plants should be confined to operation. Foods should be and thoroughly cleaned before using. Wash all contaminated before reuse. Remove if spraying. When used in the room and the rooms

ENVIRONMENT

This product is extremely water or wetlands (swamps and drift from treated areas) organisms in adjacent sites disposing of equipment v
