**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS & DOMESTIC ANIMALS**

CAUTION

Harmful if swallowed. Avoid breathing of vapor or contact with skin, eyes or clothing. In case of contact, immediately flush eyes or skin with plenty of water. Get medical attention if irritation persists. Do not smoke while spraying. Remove pets, birds and cover fish aquariums before spraying. Do not remain in treated areas. For Household Use Only. Cover or remove exposed foods, avoid contamination of cooking utensils and food preparation areas.

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Keep out of lakes, ponds or streams. Do not contaminate water by cleaning of equipment or disposal of wastes.

DIRECTIONS FOR USE

GENERAL CLASSIFICATION

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

STORAGE AND DISPOSAL

Do not reuse empty container.
Wrap container and put in trash collection.

SHAKE WELL BEFORE USING.

Apply using a good sprayer adjusted to deliver a fine mist.

INDOORS: For control of house flies, mosquitoes and gnats

Close all doors and windows. Direct the spray mist to all parts of the room, especially windows and other light sources which attract these insects. Fill the room with mist, then leave the treated area. Keep the room closed for at least 15 minutes. Ventilate the room when treatment is completed.

INDOORS: For control of cockroaches, earwigs, grain mites, sowbugs, spiders and centipedes

Spray thoroughly into hiding places such as cracks, crevices, moist areas, openings around pipes, under refrigerators, baseboards and storage areas. Spray directly on insects where possible. Repeat as necessary.

ANTS: Spray trails, nests and points of entry. Spray on ants where possible. Repeat as necessary.

OUTDOORS: To kill mosquitoes, gnats (midges), house flies, biting flies and flying moths (millers)

Follow precautions listed above. Apply the spray 18 to 24 inches from shrubs, bushes and grassy areas. Spray these areas with a slow sweeping motion while moving away from the treated area. To reduce annoyance from these flying insects, treat open porches and patios in a similar manner. Spray only when the air is still. Allow spray to dissipate before occupying the treated area. Repeat as necessary.

OUTDOORS: To protect ornamental plants

Apply using a good sprayer adjusted to deliver a fine mist, spraying plants from 18 to 24 inches.

ORNAMENTALS		INSECTS
Smaller Rhododendrons		Mimosa Webworm Larvae
Pines	Viburnum	(on mimosa)
Spruce	Euonymus	Aphids
Hemlock	Oaks	Exposed Thrips
Spirea	Maples	White Flies
Dogwood	Locust	Leafhoppers
Palm	Forsythia	Plant Bugs
Mimosa	Althea	Japanese Beetles
Toyon		

Ornamental Quince, Juniper, Cypress, Ornamental Mulberry, Ash, Catanester, Rose, Camellia, Azalea, Pyreantha and Carnations may also be treated to control the above pests, but use with extreme caution. Certain varieties have shown some leaf burn under certain conditions of use such as heavy dosage. Repeat as necessary to obtain control.

OUTDOORS: To protect house plants

Spray infested African violets, philodendron, geraniums, begonias, coleus for control of listed pests. Repeat application as necessary.

OUTDOORS: To control nuisance pests

Ants: Spray trails, nests and points of entry. Spray on ants where possible. Repeat as necessary.

Wasps: Application should be made in late evening when insects are at rest. Spray liberally into hiding and breeding places contacting as many insects as possible. Repeat as necessary.

Spiders: Spray directly on spiders and repeat as necessary.
