AUTOMATIC SEQUENTIAL FOOD PLANT AEROSOL

A Highly Concentrated Aerosol

For control of Flies, Mosquitoes, Small
Flying Bees and Gnats

ACTIVE INGREDIENTS:

Pyrrethrin	0.97
*Etoproxyfluthrin, technical	9.00
Base	10.1
INERT INGREDIENTS	80.0
	100.07

*Etoproxyfluthrin (butyl arylid) (6-propyl-
1,1,1-trifluoro-2,2,2-trifluoroethyl ether) and 1,2,3-trifluoro-2-propyl-
1,1,1-trifluoroethyl ether and 1,2,3-trifluoro-2-propyl-
1,1,1-trifluoroethyl ether related compounds.

KEEP OUT OF REACH OF CHILDREN

CAUTION

See side panel for additional precautions.

THIS PRODUCT CONTAINS CHLOROFLUOROCARBON-11
AND CHLOROPOLYFLUOROCARBON-12.

EPA Reg. No. 4816-566
EPA Est. No. 274-MY-1

DIRECTIONS FOR USE

It is a violation of Federal law to use this
product in a manner inconsistent with its
labeling.

It is to be used only in non-ventilated food
handling areas where these insects are an
annoyance: in Food Processing Plants, Res-
taurants, Hospitals, Stores, Motels, Schools
and other Public Buildings; in Barracks, Farms,
Canneries, Breweries and Food Handling Es-
tablishments.

This product is designed for use in auto-
matically-timed discharging devices. Using
the metered valve provided, which gives a
dose of 100 mos. per discharge every
fifteen minutes, one unit will control flies,
mosquitoes, gnats and flying bees in an area
of approximately 600 cubic feet. Factor
in as 5000 sq. ft. area, temperature, humidity
and air current influence insect activity
and may modify the exact area protected.
Repeat control will follow up with 24 hours
of control. It is to be used in the following
manner:

Used as described, this 12-ounce can contains
sufficient insecticide to cover 24 hours a
day for 30 days. This will provide for monthly
replacement. Any remaining contents may be
used manually.

To use manually, remove cap and direct spray
at flies or other flying insects listed on
the label, pressing actuator button repeatedly.
To treat entire area, close windows and doors
and press actuator button 7 times per 1000
cubic feet of space in the upper portion of
the room. Keep room closed for 15 minutes
and ventilate before reoccupying.

Feeds should be removed or covered during
treatment. All food processing surfaces
should be covered during treatment or thor-
oughly cleaned before using. When using the
product in these areas, apply only when the
facility is not in operation.

DISPOSAL

Wrap container and put in trash
collection.

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS & DOMESTIC ANIMALS**

CAUTION

Do not use in nurseries or rooms where in-
fants, ill or aged persons are confined.

PHYSICAL OR CHEMICAL HAZARDS

Contents under pressure. Do not store above
120°F. Do not use or store near heat or open
flame. Do not puncture or incinerate con-
tainer.

Buyer assumes all risks of use, storage or
handling of this material not in strict ac-
cordance with directions given herewith.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

To be used only in non-residential food handling areas wherever these insects are an annoyance: In Food Processing Plants, Restaurants, Hospitals, Stores, Motels, Schools and other Public Buildings; In Dairies, Barns, Canneries, Breweries and Food Handling Establishments.

This product is designed for use in automatically-timed discharging devices. Using the metered valve provided, which gives a dosage of 100 mgs. set to discharge every fifteen minutes, one unit will control flies, mosquitoes, gnats and flying moths in an area of approximately 6000 cubic feet. Factors such as shape of area, temperature, humidity and air currents will influence insect activity and may modify the exact area protected. Insect control will build up within 2 hours after the unit is in operation.

Used as described, this 12-ounce can contains sufficient insecticide to cover 2000 square feet of area per day for 34 days. This will provide for monthly replacement. Any remaining contents may be used manually.

To use manually, remove cap and direct spray at flies or other flying insects listed on the label, pressing actuator button repeatedly. To treat entire area, close windows and doors and press actuator button 7 times per 1000 cubic feet of space in the upper portion of the room. Keep room closed for 15 minutes and ventilate before reoccupying.

Foods should be removed or covered during treatment. All food processing surfaces should be covered during treatment or thoroughly cleaned before using. When using the product in these areas, apply only when the facility is not in operation.

DISPOSAL

Wrap container and put in trash collection.
