

CODE 726.35

TETRALATE® 2.5-2.5 MAG

For application as a space, area or spray. Dependent upon pests to be controlled and the area to be treated, may be applied with Mechanical Aerosol Generators (ULV) or conventional spraying equipment.

USE AREAS:

Food Processing Plants	Office Buildings
Homes	Railroad Cars
Horse Barns	Restaurants
Hospitals	Schools
Hotels	Supermarkets
Industrial Installations	Truck Trailers
Warehouses	Zoos

Kills exposed or accessible stages of:

Ants	Grain Mites
Boxelder Bugs	Houseflies
Cockroaches	Indian Meal Moths
Crickets	Mosquitoes
Clover Mites	Mealworms
Confused Flour Beetles	Rice Weevils
Cigarette Beetles	Red Flour Beetles
Cadellies	Small Flying Moths
Drugstore Beetles	Silverfish
Earwigs	Spiders
Fruit Flies	Saw-toothed Grain Beetles
Grains	Spider Beetles
Granary Weevils	

ACTIVE INGREDIENTS:

Tetramethrin [1-Cyclohexene-1, 2-dicarboximide methyl-2, 2-dimethyl-3-(methylpropenyl) cyclopropanecarboxylate]	2.50%
Related compounds	0.34%
Thiomethrin [5-(phenylmethyl)-3-furanyl methyl 2, 2-dimethyl-3-(2-methyl-1-propenyl) cyclopropanecarboxylate]	2.50%
Related Compounds	0.46%
Petroleum Distillate	90.00%
INERT INGREDIENTS	4.20%
	100.00%
Net weight, 16 oz. (1 lb.) can	

KEEP OUT OF REACH OF CHILDREN CAUTION

Harmful if swallowed. Avoid breathing of vapor or contact with skin. Avoid contact with eyes.

See back panel for additional precautions.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Flying Insects: For control of Houseflies, mosquitoes, small flying moths, and gnats: Close all doors and windows and shut off ventilating systems. Use a mechanical aerosol generator or a sprayer adjusted to deliver an aerosol spray (no droplets over 50 microns in diameter and 80% less than 30 microns). Use 1 ounce per 1000 cubic feet of space. For application with conventional spray equipment, dilute 1 part concentrate with 9 parts of oil and mix well. Apply at the rate of 1-2 ounces per 1000 cubic feet. Direct the spray toward the upper parts of the room or other enclosure and behind all obstructions. Vacate the area and keep it closed at least 15 minutes after spraying. Ventilate thoroughly before re-occupying.

Crawling Pests: To insure maximum control of exposed cockroaches, ants, silverfish, crickets, spiders, earwigs, boxelder bugs, clover mites, granary weevils, rice weevils, confused and red flour beetles, sawtoothed grain beetles, spider beetles, cigarette beetles, drugstore beetles, Indian meal moths, mealworms, grain mites and cadellies: Dilute 1 part concentrate with 9 parts of insecticide base oil and mix well. Apply as a coarse droplet spray to thoroughly cover infested areas. Direct the spray behind baseboards, moldings, cabinets, shelves, sinks, door frames and pipes and into drains, dark

corners, cracks, crevices, recesses or other hiding places to contact the insects wherever possible. For in-transit protection of commodities, clean and spray truck beds, boxcars, and ships' holds before loading. Thoroughly treat walls and floors and lightly spray each layer of cartons or other containers as they are stacked.

When using in animal quarters, do not apply directly to food, water or food supplements. Do not apply directly to animals or when they are present in the barns. In hospital, patients should be removed prior to treatment.

DISPOSAL

Do not reuse empty container. Wrap container in trash collection.

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Keep out of lakes, streams, ponds, tidal marshes and estuaries. Do not apply where runoff is likely to occur. Do not contaminate water by cleaning of equipment or disposal of wastes. Shrimp and crab may be killed at application rates recommended on this label. Do not apply where these are important resources.

PHYSICAL OR CHEMICAL HAZARDS

Do not pour or spill near open flame.

Precautionary Statements

Hazards to Humans & Domestic Animals CAUTION

Harmful if swallowed or absorbed through skin. Avoid breathing vapors. Avoid contact with eyes, skin or clothing. In case of contact, immediately flush eyes and skin with plenty of water. Get medical attention if irritation persists.

Remove pets, birds and cover fish aquaria before spray.
