

~~PROFUMER~~ 1% RESIDUAL SPRAY

ACTIVE INGREDIENTS:

22-(1-methylethoxy) phenol 1%
methylcarbamate 99%

~~11 OTHER INGREDIENTS~~ 100%

U.S. Patent No. 3,111,539

~~Contains Petroleum Distillate~~

HOW TO USE:

Spray infested surfaces until wet, moving the spray rapidly to prevent excessive wetting and waste of material. Point spray away from people, plants, and pets.

INDOOR USE:

Ants, cockroaches, crickets, silverfish, spiders, sawtoothed grain beetles (exposed stages), waterbugs: spray into cracks, crevices, around baseboards, and other places where these insects may hide. Apply behind and beneath cabinets, refrigerators, sinks, stoves, and waste containers for ants, spray trails and places where ants enter premises. Repeat as needed. Do not spray foodstuffs or house plants. Remove pets and cover fish bowls before spraying. Do not allow children to contact treated surfaces. Dispose of infested food stuffs.

BROWN DOG TICKS:

Spray sleeping quarters of pets, around baseboards, window and door frames, wall cracks and local areas of floors. Repeat as needed. Old bedding of pets should be removed and replaced with clean, fresh bedding after treatment of pet areas. Additionally treat pets with an EPA approved product registered for direct application to pets.

OUTDOOR USE:

Ants, clover mites, crickets, earwigs, fleas, flies, hornets, millipedes, mosquitoes, sawbugs, wasps, and brown dog ticks: spray infested areas thoroughly including outside surfaces of screens, doors, window frames, foundations, patios, or other places where insects may enter. For ants, spray hills and runways. For control of wasps and hornets apply after dark when all of the insects have returned to the nest. Repeat as necessary. Do not spray vegetation. Do not reuse empty container. Wrap container and put in trash.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION

May be harmful if swallowed, inhaled, or absorbed through the skin. Avoid breathing of spray mist and provide adequate ventilation of area being treated. Contact with skin, eyes, or clothing should also be avoided. Wash thoroughly after use. Avoid contamination of food, utensils, and food preparation areas. Should illness occur, get prompt medical aid. NOTE TO PHYSICIAN: Atropine sulfate is antidotal. Do not use in edible product areas of food processing plants, restaurants or other areas where food is commercially prepared or processed. Do not use in serving areas while food is exposed. When using in food processing plants, apply only in the inedible product areas where no exposed food or processing equipment is present, taking needed precautions to avoid contamination of packaged or stored commodities. Do not apply to rugs, carpets, draperies, wallpaper, or similar materials that may be stained. Avoid excessive wetting of plastic, rubber, and asphalt surfaces such as tiles and floor coverings.

STATEMENT OF PRACTICAL TREATMENT

If In Eyes or On Skin: Flush with plenty of water and get immediate medical attention.
If Swallowed: If swallowed drink a glass of water and induce vomiting by touching finger to back of throat. Get medical attention.

CHEMICAL HAZARDS

Flammable. Contents under pressure. Keep away from heat, sparks, and open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting.

Buyer assumes all risks of use, storage or handling of this product not in strict accordance with directions given herewith.

Keep Out Of Reach Of Children

CAUTION

See side panel for additional precautions

EPA Reg. No. 4816-601 EPA Est. No. 279-NY-1

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

This product provides rapid kill of the insects as listed below, including those resistant to certain chlorinated hydrocarbon and phosphate insecticides:

Ants	Mosquitoes
Brown Dog Ticks	Roaches
Clover Mites	Sawtoothed Grain
Crickets	Beetles (Exposed Stages)
Earwigs	Scorpions
Fleas	Silverfish
Flies	Sawbugs
Hornets	Spiders
Millipedes	Wasps

In addition to rapid initial kill, the spray deposit remains on the treated surfaces and kills indoor pests for up to 2 weeks after it has dried.
