AUG 26 1988

Mr. Jan Brill
Fairfield American Corporation
8th & Harrison Streets
Frenchtown, NJ 08825

Dear Mr. Brill:

Subject: Amendment - Label Update
Pyrenone Diazinon Aqueous Base
EPA Registration No. 4816-621
Your Application Dated January 27, 1988

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable provided that you make the labeling changes listed below before you release the product for shipment bearing the amended labeling.

1. Please update the Note to Physician as follows:

Note to Physician: Diazinon is an organophosphate insecticide. If symptoms of cholinesterase inhibition are present, atropine sulfate by injection is antidotal. 2-PAM is also antidotal and may be administered, but only in conjunction with atropine.

2. The product name is misleading with reference to the term "Aqueous" base. The product contains no water itself but is used in the formulation of water based products. Thus, please revise the name at the next label printing.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or
PESTICIDE STORAGE AND SPILL PROCEDURES: Store upright
temperature. Avoid exposure to extreme temperatures
of spill or leakage, soak up with an absorbent material
as sand, sawdust, earth, fuller's earth, etc. Dispose
chemical waste.

PESTICIDE DISPOSAL: Pesticide, spray mixture or rinse
that cannot be used according to label instructions
disposed of at or by an approved waste disposal facility.

CONTAINER DISPOSAL: Triple rinse (or equivalent) then
for recycling or reconditioning, or puncture and dispose
a sanitary landfill, or by other approved State and
procedures.

CONTAINERS ONE GALLON AND SMALLER: Do not reuse container
Wrap container in several layers of newspaper and dispose
trash.

HAZARDS TO HUMANS & DOMESTIC ANIMALS

WARNING

Causes eye irritation. Do not get in eyes, on skin or on clothing
if swallowed. Avoid inhalation of vapor. May be absorbed through
skin. Wash thoroughly after handling and before smoking and eating.
Avoid contamination of feed and foodstuffs.

STATEMENT OF PRACTICAL TREATMENT

If In Eyes: Flush eyes with plenty of water. Call a
physician if irritation persists.

If Swallowed: Drink one or two glasses of water and
vomiting by touching the back of the throat
with finger. Repeat until vomit flows
clear. Call a physician or Poison Control
Center immediately. Do not induce vomiting.
Give anything by mouth to an unconscious person.

If Inhaled: Remove victim to fresh air. Apply artificial
respiration if indicated.

If On Skin: Remove contaminated clothing and wash
areas with soap and water.

NOTE TO PHYSICIAN

This product contains a cholinesterase inhibitor. If
signs of cholinesterase inhibition are present, Atropine is
antidotal. 2-PAM may be administered in conjunction
with Atropine.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish and wildlife. Do not discharge
containing this active ingredient into lakes, streams, ponds, or
oceans or public waters unless this product is specifically labeled
addressed in an NPDES permit. Do not discharge effluent containing
product to sewer systems without previously notifying the local
plant authority. For guidance contact your State Water Board or
Office of the EPA.

Buyer assumes all risks of use, storage or handling of
product not in strict accordance with directions given
herewith.
