

JUN 06 1991

Mr. Jan Brill  
Fairfield American Corporation  
809 Harrison Street  
Frenchtown, NJ 08825

Dear Mr. Brill:

Subject: Formula revision; label revision  
Alleviate W.B. Concentrate  
EPA Registration Number 4816-623  
Submissions dated May 30, 1990; September 18, 1990

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable subject to the comments listed below. A stamped copy is enclosed for your records.

1. In reference to the CSF, Aromatic 100 Solvent is no longer available. Submit a revised CSF declaring a substitute for this compound in the product formulation.
2. Concerning the draft label, delete "Related compounds" from the active ingredient statement and combine this percentage with that for the inert ingredients. Do not list "Related compounds" separately.
3. Change the ENVIRONMENTAL HAZARDS STATEMENT to read as follows:

This pesticide is highly toxic to fish. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or public waters unless this product is specifically identified and addressed in an NPDES permit. Do not discharge effluent containing this product into sewer systems without previously notifying the sewage treatment plant authority. For guidance, contact your local State Water Board or Regional Office of the EPA.

This letter will also acknowledge receipt of the GENERIC DATA EXEMPTION STATEMENT, the CONFIDENTIAL STATEMENT OF FORMULA, and five copies of the product label, for the pesticide cited above, submitted in response to the Data Call-In (DCI) for products containing allethrin isomers as active ingredients.

Sincerely,

Richard F. Mountfort  
Product Manager 10  
Insecticide-Rodenticide Branch  
Registration Division (H7505C)
