CODE 725.62

# Pyrenone<sup>(H)</sup> MOSQUITO CAPSULES

EPA Reg. No. 4816-630

EPA Est. No. 279-NY-1

### TOSS THEM INTO THE WATER TO KILL MOSQUITO LARVAE

If the water is cool (70°F or lower) the initial discharge of the solution will require from 5 to 40 minutes. Each capsule should larvicide 100 square feet of open and unobstructed water surface with about a 6-inch depth. Proportionately more capsules should be used for larger areas and greater depth. ~~Advances~~ has been made for capsules retaining, at times, a portion of the solution. In many cases, this is advantageous since it provides for additional "continuing" action.

ACCEPTED  
DEC 11 1986  
EPA Reg. No. 4816-630

## STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

**PESTICIDE STORAGE:** KEEP CAPSULES DRY in storage. Do not store under excessive conditions of heat or humidity or in direct sunlight.

**PESTICIDE DISPOSAL:** Pesticide that cannot be used according to label instructions must be disposed of according to applicable Federal, State or local procedures.

**CONTAINER DISPOSAL:** Do not reuse empty container. Wrap container and put in trash collection.

### ACTIVE INGREDIENTS

Pyrethrins.....	1.0%
*Piperonyl Butoxide, Technical .....	10.0%
**INERT INGREDIENTS:.....	89.0%
	100.0%

\*Equivalent to 8.0% (butylcarbityl)(6-propylpiperonyl) ether and 2.0% related compounds

\*\*Contains Petroleum Distillate

**KEEP OUT OF REACH OF CHILDREN**  
**CAUTION**  
Harmful if swallowed  
See side panel for additional precautions.

Pyrenone - Registered Trademark of Fairfield American Corporation

## DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Areas of use include such mosquito breeding habitats as stagnant pools, road and irrigation ditches, catch basins, artificial containers, lake shore lines, dairy wash lagoons, quarries and marshy areas.

Pyrenone Mosquito Capsules are so designed that they will rupture, dissolve or disintegrate when they are placed or thrown in water. Once action starts the especially formulated solution can be seen "shooting" across the surface of the water in all directions. This surface action will continue until the water surface is completely covered. In small ponds, artificial containers, etc., only a few seconds are required for effective coverage.

### PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS & DOMESTIC ANIMALS

#### CAUTION

Harmful if swallowed. May produce irritation of the eyes and skin. Wash thoroughly after handling. Avoid contamination of feed and foodstuffs.

#### STATEMENT OF PRACTICAL TREATMENT

**IF SWALLOWED:** Do not induce vomiting unless directed by a physician. Contact a physician or Poison Control Center immediately. This product contains petroleum distillate. Aspiration pneumonia is a hazard.

**IF IN EYES:** Flush eyes with plenty of water. Contact a physician if irritation persists.

**IF ON SKIN:** Remove contaminated clothing and wash affected areas with soap and water.

#### ENVIRONMENTAL HAZARDS

This product is toxic to fish, shrimp, crabs and other aquatic organisms. Do not apply directly to lakes, streams or ponds. May be used in mosquito breeding areas such as marshy areas, pools and ponds where fish, shrimp, crabs and other desirable aquatic animals will not be harmed.

#### PHYSICAL OR CHEMICAL HAZARDS

Do not use or store near heat or open flame.

User assumes all risks of use, storage or handling of this material not in strict accordance with directions given herewith.
