BUTACIDE 8 EC

EPA Reg 1 > 4816 642AA

EPA Est. No. 279-NY-1

- * Tank-Mix Insecticide Synergist
- * Contains 8 pounds of Piperonyl Butoxide per gallon
- * Improves control of Resistant Insects
- * For use in Resistance Management Programs

ACTIVE INGREDIENT:

"Piperony" Butor del Technical INERT INGREDIENTS: 91 0% 9 0% 100 0%

*Equivalent to 72.8% (butylcarbityl)(6 propylpiperonyl) ether and 19.2% related compounds.

BUTACIDE - Registered trademark of Fairfeld American Corporation

KEEP OUT OF REACH OF CHILDREN CAUTION

STATEMENT OF PRACTICAL TREATMENT

IF SWALLOWED. Call a physician or Poison Control Center. Or nk one or two glasses of water and induce vomiting by touching the back of the throat with finger. Repeat until vomit fluid is clear. Coinct induce your ting or give anything by mouth to an unconscipling person.

: PithHACED - Remove affected person to freshiair. Apply artificial irendiration find cated.

FIGNISK N. Wis his thigherty of water and spap

(F) to EYES in mond atoly flush eyes with plenty of water for at least 15 minutes. Get medical attention distribution persists.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling

USE ON AGRICULTURAL CROPS:

To be tank mixed with agricultural insect cides, as recommended by local Agricultural Extension Specialists, County Extension Agents, Crop Consultants or Pest Control Advisors. To provide increased control of resistant insects, tank mix Butacide 8 EC at a rate of up to 1 pound of Piperonyl Butoxide per acre (see dilution chart below) with the appropriate amount of companion insecticide and sufficient diluent to ensure uniform coverage and apply per the Directions for Use on the companion insecticide label. Butacide 8 EC may be applied by ground or aerial application equipment.

	DILUTION CHART	
Pounds PB Per Acre	Fluid Ounces Per Acre	Acres per Gallon
TREADURE.	I AT UALS	Adriat .
0 125	2	64
0 25	4	32
0 5	В	16
10	16	8

Applications must be made in accordance with the more restrictive of label limitations and precautions. No label application rates may be exceeded. This product cannot be mixed with any product with label prohibitions against such mixing.

USE THROUGH IRRIGATION SYSTEMS (CHEMIGATION)

Refer to supplemental labeling entitled 'DIRECTIONS FOR AP-PLICATION THROUGH IRRIGATION SYSTEMS' (available through your Fairfield American distributor) for use directions for chemigation. Do not apply this product through any irrigation system unless the supplemental labeling on chemigation is followed and the product to be tank mixed with is labeled for chemigation use.

USE ON GREENHOUSE VEGETABLE, FLOWER, AND FOLIAGE PLANTS:

To be tank mixed with other insecticides to improve the control of the insects on the crops named on their labels. Observing the directions on the insecticide label, tank mix at a rate of up to it pound of Piceronyl Butor de per 100 gallons of water (to provide it cound of Piceronyl Butor de per 100 gallons of water (to provide it cound of Piceronyl Butor de per 100 gallons of water (to provide it cound of Piceronyl Butor de per 100 gallons of water (to provide it cound of Piceronyl Butor de per 100 gallons of water (to provide it cound of Piceronyl Butor de per 100 gallons of water (to provide it cound of Piceronyl Butor de per 100 gallons of water (to provide it cound of Piceronyl Butor de per 100 gallons of water (to provide it cound of Piceronyl Butor de per 100 gallons of water (to provide it cound of Piceronyl Butor de per 100 gallons of water (to provide it cound of Piceronyl Butor de per 100 gallons of water (to provide it cound of Piceronyl Butor de per 100 gallons of water (to provide it cound of Piceronyl Butor de per 100 gallons of water (to provide it cound of Piceronyl Butor de per 100 gallons of water (to provide it cound of Piceronyl Butor de per 100 gallons of water (to provide it cound of Piceronyl Butor de per 100 gallons of water (to provide it cound of Piceronyl Butor de per 100 gallons of water (to provide it cound of Piceronyl Butor de per 100 gallons of water (to provide it cound of Piceronyl Butor de per 100 gallons of water (to provide it cound of Piceronyl Butor de per 100 gallons of water (to provide it cound of Piceronyl Butor de per 100 gallons of water (to provide it cound of Piceronyl Butor de per 100 gallons of water (to provide it cound of Piceronyl Butor de per 100 gallons of water (to provide it cound of Piceronyl Butor de per 100 gallons of water (to provide it cound of Piceronyl Butor de per 100 gallons of water (to provide it cound of Piceronyl Butor de per 100 gallons of water (to provide it cound of Piceronyl Butor de per 100 gallons of water (to provide it cound of Pice

Plant safety is an important consideration when using insecticides in a greenhouse. However, it is not possible to evaluate the phytotoxicity of Rutanide 8 EC in combination with a number of insecticides towards a multifulation plant varieties in different growth stages lyndor varying environmental conditions. Before making willosproad applications of Putanide 8 EC, treat a limited original follows with the task mixing of cheeve for phytotoxicity over a 10 day or old.

Applications must be made of label limitations and prec be exceeded. This product label prohibitions against s
