If Insects are in areas where multiple treatments are required, apply Pyrenone to all areas of infestation.

RECOMMENDATIONS

BATCH

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

DO NOT REUSE SPRAY - Hold container upright, nozzle pointed down, activate button, spraying as directed.

In Army Quarters

To protect cattle from attacks of stable flies, house flies, horse flies, horn flies, mosquitoes and gnats, use Pyrenone on each side being careful to spray back with the spray. To protect from eye flies, spray the face of the eye. Repeat treatment as necessary.

For rapid control of House flies, Mosquitoes, Gnats, Wasps, and other pests - Close windows and doors and spray at a rate of 100 cubic feet of space. For best results, keep a 15 minute interval after spraying. Do not remain in treated area after treatment is completed.

In Schools, Hospitals, Institutions, Laundries, Supermarkets, Restaurants, Hotels, Drug Stores and Food Plants - Control flies, mosquitoes, gnats, wasps, hornets and other pests. Close all doors and windows and spray room at a rate of 100 cubic feet. Direct spray to all parts, especially windows and other light sources which attract insects. Keep insects in constant motion. Keep room clean after treatment. Repeat treatment as necessary.

For control of Weevils, Beetles, Silverfish, Crickets, Spiders, and Bugs - Spray into hiding places such as cracks and under sinks, and cabinets, along baseboards and floors and plumbing, hitting insects with spray whenever possible. Repeat as necessary.

Ants - Spray trails, nests and points of entry. Spray as often as necessary. Repeat as necessary.

Indian Meal Moths, Angoumois Grain Moths - Close doors and spray into all parts of room, especially around product containers, pallets, and darkened areas. Spray into each 1000 cubic feet of space. Keep area clean after treatment. Repeat application weekly.

For control of Confused Flour Beetles, Saw Toothed Flour Beetles, R. a. weevils, granary weevils, grain mites, etc. on all processing and handling equipment - Close doors and all other areas where these insects aggregate. Spray 10 seconds in each 1000 cubic feet of space. Repeat as often as necessary. Repeat application weekly.
