Ms. Helen C. Theodore Fairfield American Corporation 809 Harrison Street Frenchtown, New Jersey 08825

Subject: Revised Labeling--Food Handling Establishments

Pyrenone Bendiocarb Roach & Ant Spray

EPA Registration Number 4816-704

Your Amendment Application Dated October 1, 1991

Dear Ms. Theodore:

The amendment referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), sec. 3(c)(7)(A), is acceptable provided that you:

- 1. Submit and/or cite all data required for registration/ reregistration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data.
- 2. Submit five (5) copies of your final printed labeling before you release the product for shipment.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product bearing the amended labeling constitutes acceptance of these conditions.

A stamped copy of the labeling is enclosed for your records.

Sincerely yours,

DITE

Dennis H. Edwards, Jr. Product Manager (19) Insecticide-Rodenticide Branch Registration Division (H7505C)

### DIRECTIONS FOR USE

BENDIOCARB It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

> To operate, hold can upright, direct orifice toward the surface to be treated and press the actuator button. Do not use as a space spray. Do not spray near heat or open flame.

> To kill crawling insects: Ants, Carpet Beetles, Centipedes, Cockroaches, Crickets, Earwigs, Fire Brats, Pillbugs, Silverfish and Spiders, thoroughly apply as a spot treatment to areas where these pests are found or may hide, including dark corners of rooms and closets, cracks and crevices, under carpets, along baseboards and door sills and frames; behind and beneath sinks, stoves, refrigerators, and cabinets and around garbage cans, plumbing and other utility installations. Pests driven out of hiding places should be sprayed directly. Spray ant trails, nests and points of entry.

> To kill Brown Dog Ticks and Fleas, apply thoroughly as a spot treatment to infested areas such as pet beds and resting quarters and nearby cracks and crevices; along and behind baseboards, window and door frames and localized areas of floor and floor covering where these pests may be present. Fresh bedding should be placed in animal quarters following treatment. Do not spray pets with this product. Treat pets with a product registered for application to pets to control the source of flea infestation.

> To control flying insects: Flies, Gnats, Hornets, Mosquitoes, Small Flying Moths Wasps and Yellow Jackets, use only on outdoor sur: Jes. Spray surfaces of window and door frames and other areas where these pests may enter the home. Also spray dark corners and localized resting areas, such as under eaves, porches, partitions and in garages where these insects may congregate. Flies and Mosquitoes coming to rest on treated surfaces will be killed. Repeat treatment when effectiveness diminishes.
