NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you:

1. Submit and/or cite all data required for registration/reregistration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data.
2. Make the labeling changes listed below before you release the product for shipment:
 - a. Add the phrase, "EPA Registration No. 4816-730."

c. Since your product contains "cyclohexanone" which is included in Appendix B of PR Notice 83-3, change the Pesticide Disposal to read:

Pesticide wastes are toxic. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste Representative at the nearest EPA Regional Office for guidance.

d. You should provide separate Container Disposal instructions for container sizes greater than 1 gallon and for 1 gallon or less.

e. Add the following to the label:

PHYSICAL AND CHEMICAL HAZARDS

Do not use or store near heat or open flame.

✓f. The chemical name should be inserted in brackets after Tetramethrin and Permethrin. Moreover, the cis/trans isomer ratio for Permethrin should be inserted as a footnote to the ingredients statement.

g. Submit a copy of the Product Description Sheet which is referenced on the labeling for review by the Agency.

3. The following deals with chemistry for this product:

a. The accelerated storage stability data for 30 days at 50°C are acceptable on an interim basis. A one year storage stability study must be conducted. The formulated product must be analyzed for its active ingredient at time zero and through a year of storage. The storage should be in warehouse conditions of temperature and humidity and stored in similar containers you will be using in the trade. Note: For the Storage Stability study you cannot reference the concentrate you are using to formulate your product.

b. Submit a new statement of composition. A more detailed description of the manufacturing/formulation process. Describe equipment used, mixing time, temperature, etc.

4. The submitted acute toxicity studies are acceptable and classified as follows:
