product always refer to the above U.S. FPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) since you have agreed to:

1. Submit and/or cite all data or other material required for registration/reregistration of your product under FIFRA sec. 3(c)(5) or FIFRA sec. 4 when the Agency requires all registrants of similar products to submit such data.

2. Submit data listed below, conducted in accordance with the Pesticide Assessment Guideline (40 CFR Part 158 - Data Requirements for Registration) no later than one year from receipt of the Notice for Registration.

a. Dermal Sensitization - Guideline 81-6

3. Make the labeling changes listed below before you release the product for shipment:

a. Add the phrase, "EPA Registration No. 4816-742".

4. Submit five copies of your final printed labeling before you release the product for shipment. Refer to the A-79 Enclosure for a further description of final printed labeling.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

In the home, all food processing surfaces and utensils should be covered during treatment or thoroughly washed before use. Exposed food should be covered or removed.

SHAKE WELL BEFORE USING

Remove protective cap, hold container upright and spray from a distance of 12 to 15 inches. Remove birds and cover fish aquariums before spraying.

INDOORS:

Houseflies, Fruit Files, Mosquitoes, Gnats, Wasps, Hornets, Bees, Black Files, Skipper Files, Blow Files and Small Flying Moths: Close all doors and windows and direct spray upward into center of room with a slow sweeping motion. Spray 5-10 seconds for average room. Direct spray to all parts of the room, especially windows and other light sources which attract these insects. Keep nozzle in constant motion. Keep room closed for 15 minutes after spraying. Ventilate room thoroughly before reentry. Sweep up and discard fallen insects. Repeat treatment as necessary.

OUTDOORS:

Point spray nozzle away from face. Hold can on slight downward angle. For best results, spray when air is calm. Allow a few minutes for product to take effect. Spray with wind if breeze is blowing.

TE FLYING INSECTS: Files, Mosquitoes, Gnats, Small Flying Moths, Hornets and Yellow Jackets. TE Plow fog to drift over area. Direct spray toward ushes, or grass from at least 4 to 6 feet away. Give special attention to breeding areas such as garbage cans and compost piles. Repeat as necessary.

Redenticide, CRAWLING INSECTS: Ants, Cockroaches, includ-Redenticide ficting Asian Cockroaches, Crickets, Centipedes, and Silverfish. Spray infested surface of patio or Discric area, hitting as many insects as possible. Also
