- e). Delete reference to use of higher rate since only one rate of application is given.
- f). The active ingredient declaration must be incorporated on the individual package text.
- 3). Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 enclosure for further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label has been enclosed for your records.
