

USE DIRECTIONS:

For light duty cleaning, sanitizing and deodorizing, use 2 ounces per gallon.

For heavy duty cleaning and disinfecting and fungicidal activity against pathogenic fungi, use 4.5 ounces per gallon.

For best results, use CSS with a cloth or mop and apply to walls, floors and other hard surfaces. If used for sanitation of food contact items, limit the level to 200 ppm of quaternary (8 ounces per 5 gallons). No rinse required.

For extra heavy industrial cleaning and sanitizing, use a second application. Do not mix with soap or anionic solutions.

CSS is non-corrosive in use dilutions on inanimate hard surfaces.

PHENOL COEFFICIENTS:

Guaranteed	Minimum
S. aureus	15
S. typhosa	9

DANGER

Keep Out of Reach of Children

See right side panel for additional precautionary statements.

PALMER HOUSE CHEMICAL CORP.
HOUSTON, TEXAS

CSS is a heavy duty cleaner and disinfectant designed for general purpose use where heavy duty cleaning and sanitizing are of prime importance. When used as directed, CSS will remove most household dirt and grime in a single application. When used for industrial cleaning, follow the use directions shown on the left side panel.

Not recommended for *Pseudomonas aeruginosa*

For sanitization of food processing equipment or food contact items, limit the active quaternary to 200 ppm. At this level no potable water rinse is required

DANGER

Keep Out of Reach of Children,

Causes severe eye and skin damage. Do not get in eyes, on skin or on clothing. Wear goggles or face shield, and rubber gloves when handling. Harmful or fatal if swallowed. Avoid contamination of food.

FIRST AID

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash all contaminated clothing before reuse. If swallowed, drink milk, egg whites, gelatin solution, or if these are not available, drink large quantities of water. Call a physician. Rinse empty container thoroughly with water and discard.
