DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Shake can before using. Hold container upright. Point valve opening away from face and press button.

TO KILL FLYING INSECTS

HOUSEFLIES, STABLEFLIES, MOSQUITOES, SMALL FLYING MOTHS, GNATS: There is no need to spray directly at flying insects. Spray up into the air with a sweeping motion. Keeping about 3 feet from interior walls, fabric and furniture until room is filled with mist. Keep closed for 15 minutes. Ventilate room before entering. Repeat as necessary.

WASPS & HORNETS: Spray directly on stray wasps and hornets that enter building.

TO KILL CRAWLING INSECTS

ROACHES, SILVERFISH, CRICKETS: Spray hiding places such as baseboards and pipes behind bookcases, cabinets and other storage areas hitting as many insects as possible. Repeat as necessary.

ANTS: Spray trails, hills around window frames and openings, around pipes and baseboards where ants crawl hitting as many as possible. Repeat as necessary.

SPIDERS, CENTIPEDES, SOLENOIDERS: Spray webs and places where these insects crawl. Hit as many as possible.

FLEAS: Spray floors, floor coverings and sleeping quarters of pets. Repeat spraying as often as necessary. For best results dogs and cats should be treated with a registered flea control product before allowing them to enter the treated area. For heavy flea infestations use in conjunction with Raid Indoor Fogger for a complete flea control program.

STORAGE & DISPOSAL: Store in a cool dry place. Do not reuse empty container. Wrap and put in trash collection.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS & DOMESTIC ANIMALS — CAUTION: Keep out of reach of children. Harmful if swallowed, inhaled or absorbed through the skin. Avoid breathing spray mist. Do not get in eyes. In case of contact immediately flush eyes with plenty of water. Do not remain in enclosed areas after use. Ventilate enclosed areas before returning. Avoid contamination of food and foodstuffs. Remove pets, birds and cover fish aquariums before spraying.

PHYSICAL OR CHEMICAL HAZARDS: Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 120° F. may cause bursting.
